Hey guys!

I have a method that can double your BTC within 1 hour.

I will be giving 1 vouch copy (as per usual) to a trusted member of HF!

I will then begin selling this method for \$50 BTC

Requirements:

- Active internet connection
- A small investment of around \$5
- A Calculator

Works worldwide.

Updated title: You will get a full refund if this doesn't work for you within an hour!

GOING OFFLINE! IF VOUCH REVIEW IS POSTED WHILE I'M AWAY THEN YOU CAN SEND THE BTC AND I WILL SEND THE COPY AS SOON AS I COME ONLINE!

BTC Address: 1Lo98yFeTERJSBzvVrTZ44uEp3u2d5rqPo

Hey there, I'll take a vouch copy and write a review if you want. :P

Would I be eligible for the vouch copy? I have BTC ready to invest and would give an honest review of your method.

God damn bro, if the vouch copy isn't taken yet then I'd gladly take it! If this works, then I'll gladly pay you \$10,000 for the method!

Why sell method to double your BTC in one hour for \$50?

._.

._.It's true, But I've seen other people that made a method like this, and they're selling for \$200 + per copy, and I always provide the cheapest services on HF. It's part of my philosophy.

And I'm using it right now as we speak.

Sent a vouch copy to cameron and waiting for him to review it!

Can you only double \$5? Can you double let's say \$100 in one hour?

Waiting for the review from Cameron.

Waiting for the review from Cameron.The minimum investment I would say is \$5 but you can do it with any ammount larger than that! There is no maximum!

This is a public Bustabit script with some very slight modifications. This should not be for sale, especially with the ridiculous price put on it. This is something I'd expect from Black Shadow.

Yeah, what a shame though. I had high hopes for this and it looks like many other members did as well.

I wouldn't be surprised if there's a public script somewhere with these variables already tbh.
