Thread: [who can i pay to swat someone \(serious ?\)](#)

**FlyZone** - July 10, 2016, 9:27 pm

thanks phrog for the good luck i needed it

**Bluffer** - July 10, 2016, 9:28 pm

Don't even joke about this shit here. You must be a child or a mentally challenged adult.

**4.33 GPA** - July 10, 2016, 9:29 pm

There's a user on here called "Omniscient" who provides this service

**Vassilios** - July 10, 2016, 9:32 pm

This shit ain't funny. Do not do this OP or you can be charged and go to the court.

**Bluffer** - July 10, 2016, 9:32 pm

It's like you don't realize what could happen by swatting somebody?

Even if they bullied you, your friend or whom ever it doesn't give you the right to 1. waste police resources and 2. put innocent people's lives at risk just to give you a laugh.

You are the kind of scum who don't deserve access to the internet if that is what you will do with it.

Also the funniest part of this entire thread if OP does by any chance find somebody to swat them, this thread is now evidence.

OP are you aware that law enforcement knows of Hackforums and has used it before in cases against people? Are you aware that the FBI used to be or still is a part of HF and investigates certain members?

You could care less because you are safe in your home or whenever but when you actually do it and you get to court I don't think you would care less.

**SIM-2223238** - July 10, 2016, 9:39 pm

You have to offer your virginity and make a aggron shrine and someone might do it.

**Juan The Young Chef Don** - July 10, 2016, 9:52 pm

It's a federal crime to commit this as well as very childish. Kick the shit out of him or pay someone to do?

**KrazyHigh** - July 10, 2016, 9:56 pm

hello mr. Fbi we do no such bad in this communitay.

**40POPPA** - July 10, 2016, 10:24 pm

Not worth the risk.. I'd say just don't do it and don't discuss that type of stuff on an online forum.

**BR?ND?N** - July 10, 2016, 11:13 pm

Seriously dude, no, no you can't. Swatting is for dumbasses. Call the kid's school and tell them, or if you go to this school beat the fucker's ass. Swatting is the pussy way of solving shit.

What is funny is peoples complaining about illegal stuff in a website called "Hack"Forums.

You guys are just ridiculous by reacting like this.

Most of us don't care that it is illegal, we care that it's fucked up to do.

**Zexo** - July 10, 2016, 11:18 pm

This may be the most retarded thread I've seen today.

Lmao I have no skype credits.

That guy is still free to do it. Its his problem.

He's just asking for help, not for 50 guys to come and say "lolz its bad you kid dont do it" or something similar.

If we are going in that way then i could spam every keyloggers/RATs related threads telling its morally bad.

No I agree ,useless to spam him with it but I mean, you can't make a thread about swatting and expect people not to be stirred up. I'm sure plenty of people on here been swatted etc

**Desolate Night** - July 10, 2016, 11:30 pm

You got what you asked for, don't play the victim card please.

Swatting is not something you should take lightly.

**allisgood** - July 11, 2016, 12:45 am

yes this is a very bad waste of resources i really hope youre the next person in real need and its not there for you.

**Captianjack** - July 11, 2016, 1:00 am

You can pay me. I'm gonna slap someone with a fly swat

**Frankey** - July 11, 2016, 1:09 am

Well. Keemstar can make you a dox and possibly SWAT someone for you for the right price.

**Vitani's Mate** - July 11, 2016, 1:21 am

Quit being a little krabby patty! lel

**Jericho** - July 11, 2016, 1:54 am

There is a difference between something being morally wrong and swatting someone, which could end up him being dead.

You have a public youtube account with all your real shit:

<https://www.youtube.com/channel/UC3A55weY5RT8bg51ys2WVfg>

You can literally get arrested/fined for this post, i've seen people getting fined thousands for making bomb jokes or saying they're gonna murder people in a public area etc.

Is this why you need this?
