Thread: [TheSuspect uid=2781826 COMM ALERT CLOSED DUE TO COUNTER PROOF](#)

COMM ALERT CLOSED DUE TO COUNTER PROOF ON SKYPE FROM SUSPECTS MULTIPLE SKYPE ACCOUNTS. Showing that he was framed for this.

The suspect uid=2781826 account is being sold on skype from clickmy.exe. I had him provide verification by sending me a pm over skype. He claimed he had hacked the account very recently! I attempted to get any of his other HF accounts with no luck.

Account being sold: <https://hackforums.net/member.php?action=profile&uid=2781826>

ALL LOGS AND PROOF are here:

Although no sufficient proof, Alakazam <https://hackforums.net/member.php?action=profile&uid=3177786> messaged me very closely after and talked in the exact same mannerism's and the thread claiming I am a multi has both accounts in very rapid succession. Not sure of Alakazam's role.

clickmy.exe is not my skype, the only skype I use for HF is TheSuspectHF

ok i read the logs and i see what is happening here, i have been tricked by a contact on my skype to make it out like im selling my account. idk what i can provide as proof

I was messaged from this account in direct reference to selling the account on Skype all proof are in the logs and I can provide anything extra to anyone that need further proof.

G G

This backfired on OP pretty badly.

TheSuspect - July 11, 2016, 7:31 am

LOL OP thinks my account is cracked and he can bypass 2fa im dead dude

wowowowo spooky hacker multi should be banned

Vxncent - July 11, 2016, 7:34 am

This is the same dude "Dragon Fuckwitface" on Skype that thinks he's top shit in the eWhoring group chat and acts like he's a navy seal or some shit and an elite hacker, not surprised he thinks getting passed 2FA is possible. OP is literally in need of help as he is simply attention seeking. I personally know TheSuspect and there is NO chance at all he is being sold. OP is literally starting arguments with people on Skype all the time in a group chat and acts like he knows something - but he's just a pathetic multi account out to get Josh (TheSuspect) in trouble for nothing.

This is invalid, please leave.

OP has been caught being a multi accounter.[Read the post here.](#)

Anyways this skype is probably not TheSuspect's but never the less we will see how this plays out.

No because OP claims he can bypass 2fa clearly there is an easy way to crack my account then

Don't worry, OP is just a malicious multi that wants to stir up drama. I'm sure you are clean.

?

Just ignore OP.

Gaius Julius Caesar - July 11, 2016, 7:46 am

TheSuspect was framed for selling his account, he has provided sufficient evidence on Skype that he was framed and that this was a misunderstanding. I am closing the thread.
