Thread: [Change search engine/browser default](#)

Mous - July 12, 2016, 4:14 am

So I'd like to be able to use the Windows 10 Search bar to direct to google but I also want to keep my default browser as firefox/ have it use firefox when opened as well. Anyone know how to do this?

According to an article in PCWorld, Firefox is supposed to do it already if set as default search engine. You have set Google in defaults.

<http://www.pcworld.com/article/2969381/browsers/firefox-sticks-it-to-microsoft-redirects-cortana-searches-in-windows-10.html>

There is how-to for Chrome and Firefox.
