If you approached me 3 years ago with this method, I would say this is gold.

But right now, I can say. This is pretty much a commonly known method.

Let me make this clear.

- This isn't overnight money.
- This isn't instant money.
- This would take time (depending on your luck)
- This requires investment.
- I cannot say what's exactly inside the method but It's good.
- The style of writing is least called poor, Could've been way better based on the number of purchases/vouches.

This won't work every time & you might even lose money on this.

Just an honest review. If you are NOT familiar with cryptocurrencies (on a decent level), Don't buy this.
