I gotta say, I purchased this method just now and after reading this I think I really will make a lot of money from this. If what he says will happen once I do the method is true, then I am going to have a hell of a lot of gift cards. I will update this with my earnings once I do the method.

Alright, I am an actual customer who is providing an actual review of the product. This is my first time ever dealing with Squealed, and it was a quick and easy experience. The method itself almost guarantees a free gift card, but please note that you will have it sent to your address, so it's not exactly anonymous, however you might be able to work with the method to bypass this.

I like the method in general. Half of the method involves something that is already used on HF, but it puts a unique twist on it, so the entire method is still unique and never used before.

If you are looking to make money, this is a really good way to do it. The method itself involves a small upfront cost, but you will get 3 times the amount of money you spent. I highly vouch for this method.

but no one wants to say i tried the method and it workedThe method takes 3-5 days to receive the gift cards just because of shipping, but I will update you with what happens.

I used the method the OP provided in his ebook and found a way to sell it to people who are buying gift cards.

The best thing about this method is that you get any investment and then get 3x the amount. For example, I could get a \$500 gift card, and then easily turn that into \$1500 worth of profit. The only downside is that requires an upfront investment.

The reason why I am not starting off with \$500 is I want to gradually scale up until I can afford that kind of investment. After a few weeks, you could literally be making thousands of profit.

Also, I am a customer who paid the \$40 for this ebook. I have never known Squealed before, and I am not one of his "vouch buddies" that you see on this thread.

Arckos - July 17, 2016, 12:16 pm
