Um, did you forget to put a link man?

Marreez - July 14, 2016, 12:52 pm

Would this work with the xbox 360, like is the port 3065 open or whatever

I would very much like to try the vpn and wouldn't mind receiving multiple locations.

Looking for high speed locations if possible.

Heya mate :) Atm there is only 1 location which you can see if you click on "Servers" but once Germany locations is installed you can choose wheter you want either lithuania or Germany or both.

I have just issued all certs that have been requested within the past 24h :)

If you haven't received an E-Mail please contact me and I will re-send it!

A lot of people have requested servers from various locations around the world.

Please pay attention to the "Servers" page over at Xory-VPN.tk which lists all our current and planned servers. Still I do want to encourage you to include what servers you would like to see (some of you did specify that which is great to know!) so I can consider adding them in the future.

Just keep in mind this is a free service so the servers I will be using are idle ones I do not use as I do not have the money to invest in a big free server farm (even though I wish I could) :P

Anyway enjoy your free VPN service and have a great day fellas ?

Recommended, I'm using this VPN alot, very fast and no down throttling.

Ympker - July 15, 2016, 7:32 am

Big UPDATE

New Servers: I have added 3 new Lithuania Servers and 1 US server!

New interface

Using Xory VPN has become way easier! Simply register at our clientarea and wait for us to upload your OpenVPN files :-)

Thanks for the feedback mate :) Speed depends on number of users and the usage. If ppl are considerate of others and dont use this vpn for (large) downloads (see ToS), the speed will be quite good.

Start enjoying Xory VPN now! :)
