Since this guide is so easy there are some things you will need to be able to make some money with this:

Is this method black-hat?

Nope!

Not at all 99% safe!

Is this like other ripoff methods?

Certainly not! You will not make \$10,000 a month with this, but you can make some decent money if you put some time in! You will definitely make your money back from this guide! (If the method doesn't work I will refund you!)

Does this method require setup?

Setup is very minimal, you will have to sign up for something but it will only take a minute.

Sounds legit. I don't have \$250 BTC. so that won't work. Just a question: is it about starting a currency exchange service?

No, this method doesn't require you to start your own currency exchange, and it is very simple. Like I said no risk involved.

Got a vouch copy from op.

Sorry to say but this is one of the most public methods ever man, this is low even for the hf market. Not much more to say and I'd advise you not to sell this or you will have some VERY unhappy

customers
