I don't see how you could make money at all while playing Pokemon Go, unless you get people to pay you to play it for them or something ?

nique ta mere - July 15, 2016, 2:34 pm

My Review:

Difficulty: EASY. You will have to go outside, (of course, its Pokemon Go). It requires a bit of work to set up but you could definitely scale this & make good money without doing anything after setup. You get walked thru everything.

Method: GREAT. I've obviously never seen this, nor could I ever think of it. I can honestly say that it works. It's a no BS method, & I don't see it getting saturated.

Originality: 100%

Overall: 5/5 - IT REALLY CAN WORK!

Omoi - July 15, 2016, 2:36 pm

I wonder if this is blackhat or cpa with templates, good luck with sales :P looking at reviews if any have been posted. Looks good.

Zack Fair - July 15, 2016, 2:47 pm

Claiming you can make \$100+ a day without showing any actual payment proof of that is just laughable at best.

Lrrr - July 15, 2016, 3:03 pm

this seems interesting but does the method involve SE? Can you play the game on mobile or do you need to be on desktop?

but anyways glws

Nostre - July 15, 2016, 4:43 pm

Why do both of these guys have the same vouch?

monitormad123 - July 18, 2016, 3:56 pm

Methods are absolutely fucking stupid. I genuinely can't believe OP is charging so much for this. I'm actually speechless. Don't waste your money.

OP does not mention the need to use Craigslist (not big in UK), he also doesn't mention the need for multiple phones to actually make anything out of this. He also fails to mention that in order to benefit from one of the methods you need to live in a built up area and get strangers to trust you to

drive them around or trust you with their account. That is just the first option.

Second option is even more of a joke.

Genuinely don't bother.

OP has literally thought of these methods in the 5 minutes whilst taking a shit. I can almost guarantee his vouches are paid. There is absolutely no way in fucking hell someone has made 2k in the few days this has been out.

PS, yes I have few posts. I signed up specifically to buy this guide and comment on the thread. Ignore this if you want but you've been warned.

OP does not mention the need to use Craigslist (not big in UK), he also doesn't mention the need for multiple phones to actually make anything out of this. He also fails to mention that in order to benefit from one of the methods you need to live in a built up area and get strangers to trust you to drive them around or trust you with their account. That is just the first option.

Second option is even more of a joke.

Genuinely don't bother.

OP has literally thought of these methods in the 5 minutes whilst taking a shit. I can almost guarantee his vouches are paid. There is absolutely no way in fucking hell someone has made 2k in the few days this has been out.

PS, yes I have few posts. I signed up specifically to buy this guide and comment on the thread. Ignore this if you want but you've been warned.

I'd settle for a refund but 0 chance of that.

Haven't bought this shitty e-book but it's probably true like every other e-book out there.

I may be interested in buying it so posting for later

Juicy - July 21, 2016, 4:13 pm

I wonder what this method is related to, if it is anything that has been released in the subforum already obviously I am not interested, but if it is something else I might consider it. Let me know

Billie Joe - July 21, 2016, 9:00 pm

I have messaged everyone on Skype back, thanks for the people who added me.

Also sent out the guide to everybody who purchased. If I missed you just send me a PM.

Judge Judy - July 22, 2016, 7:48 am

Wow this method allows me to earn at least \$200 a day, it doesn't even take very long!

Best purchase I've ever made in my life

Great product!!!!!!!!!!!!!!

I'm skeptical, but will try it out. Will post updates.

Oh my gosh this is such crap.

And yes, there is risk involved. Maybe not risk to your Pokemon account itself, but risk to your own person. I am not a damn Uber driver, or a fucking concession stand.

Cloaked. - July 25, 2016, 7:12 am

This thread pretty much describes the whole eBook market on HF. Naive people, paid / fake vouches, no concrete payment proofs.

Nevertheless, I congratulate you for selling many copies. I can't condemn you for taking advantage of the situation to make some quick cash here D:

Difficulty: EASY. You will have to go outside, (of course, its Pokemon Go). It requires a bit of work to set up but you could definitely scale this & make good money without doing anything after setup. You get walked thru everything.

Method: GREAT. I've obviously never seen this, nor could I ever think of it. I can honestly say that it works. It's a no BS method, & I don't see it getting saturated.

Originality: 100%

Overall: 5/5 - IT REALLY CAN WORK!in addition to this I am very happy with my earnings so far

eupterraen - July 27, 2016, 1:11 pm

Yup, read that one before. Would it not be easier to just sell accounts for \$100 each that you have built up?

Sams Dad - July 27, 2016, 9:34 pm

This sound rather insane; wouldn't this just be a method on selling accounts? I am sorry for pointing any fingers! I am just really curious what this might be.

Good luck on the sales nonetheless, sir!

Sandbars87 - July 28, 2016, 4:29 am

Would the topic starter elaborate more on how this work? Do we have to sell the items obtained or what?

It doesn't involve selling accounts

So you find people IRL who are willing to do what this ebook states to do and they then pay you in paypal instead of cash?
Seems legit. lol.

junior17 - July 30, 2016, 4:10 am

This guy is nasty, can't believe where did he get them vouchers? Did he pay for it? Or people who vouched for him does it intentionally?

Synconica - July 30, 2016, 3:52 pm

the first few page's looked promising with all the vouchers, but then came the shady part, gonna stay safe and not buy this.

SkyClouds - July 30, 2016, 5:05 pm

If there actually were a real eBook that works, then no one would even sell it, they would keep it for themself to make more money of it. I believe this works, but I also believe that the eBook is public.

1. If you make \$100 a day why would you sell it according to your other ebooks too.
2. Just expect if you buy this that you might expect to chargeback since this guy has the worst ebooks ever.

Lysergic Acid Diethylamid - July 30, 2016, 7:56 pm

Total waste of money, enjoy the charge back for this useless ebook.

youdude - July 30, 2016, 8:48 pm

This e-book is LQ and his ebook reviews are by people who probably get paid to review this or a vouch4vouch thing.

RiceGum - July 31, 2016, 11:50 am

i gone down in the road of eBooks i can predict what's inside. create so many accounts

afk bot it to levels like 25 or 30

go sell it on ebay or on

BOOM PROFIT

that's how it goes but everyone is doing it and u can't find someone to buy ur account so rare now,

Lysergic Acid Diethylamid - August 3, 2016, 8:32 pm

My chargeback went through. Thanks for my money back you LQ user.
