The title of the thread says it,

Compare or show off to users here on HackForums...

I only have 4 videos!
Here's mine.

We start from somewhere buddy!

35 views increase with added 6 subscribers, can't complain.

Even though I only get like 20 ~ 30 views per video, I still love doing them. I met some really nice people through the videos I made and that's what motivated me in a way to keep doing this often. I know I'll never get big with the type of content I produce right now (Let's Plays on older games) but I started this to collect memories in a way. Upload videos that I can look back at in years xD
