Dumbo_ - July 15, 2016, 1:18 pm

Level 10, had a mad run today and went from 8 to level 10. Got a crappy Eevee from a 10km egg but managed to evolve it so I'm not that mad.

Evanescence - July 15, 2016, 1:20 pm

I'm level 19, but I have enough evolutions waiting in my Pokemon to get to 20. I'm waiting to use them for tonight when I go to the town square where there are an assload of Pokestops and lures 24/7. I'm going to use a lucky egg.

Gramps - July 15, 2016, 1:23 pm

Lvl 2 Imfao. I don't like the game and don't plan on playing it.

Evanescence - July 15, 2016, 1:28 pm

These are all of the evolutions I have saved up for tonight so far. So far the exp total is 22000 with the lucky egg on. ?

I've been fucking everywhere.

Try to go to city centers and look for lures and stuff.

Vince - July 15, 2016, 1:34 pm

You literally have to travel around to find pokes. They relate to certain biomes, the weather that is going on outside, etc.

You also start off with a couple lures which basically attract pokemon to your area for around 28 minutes. Just gotta get up and look around basically.

Wyatt Garcia - July 15, 2016, 1:34 pm

Currently level 9 =)

I play a lot but I started like not so long time ago.

Bhelliom - July 15, 2016, 1:38 pm

Just hit level 13, trying to stack as much candy as possible.

Omoi - July 15, 2016, 1:39 pm

I am level 3 been playing 1 hour.

DarkDemonSoul1337 - July 15, 2016, 1:40 pm

Im level a million because I don't play pokemon. I play a game where I go outside and smell the fresh air.

Grim - July 15, 2016, 1:52 pm

Just turned 21 yesterday. Pro tip for you guys that didnt know this already on leveling faster is to not evolve any of your pokemon. Then when you have like 10-15 ready to evolve use a lucky egg and do them all at once. Also for even more xp do it by a lure i got like 20k xp in like 30 mins doing that.

TRAUMA - July 15, 2016, 1:58 pm

You guys make me look wack as fuck!

Vassilios - July 15, 2016, 2:01 pm

I am currently level 16, will rank up more tomorrow!

I might actually buy a phone just to play this game though.

Level 1 fag chiming in here. Haven't done anything recently that's near anything of use for me. :/

Gem - July 15, 2016, 2:23 pm

KFC Watermelon - July 15, 2016, 2:28 pm

J Fish - July 15, 2016, 2:28 pm

Corpse - July 15, 2016, 2:30 pm

I'm currently level 4 since I just started "seriously" playing the game haha. Not that bad since I played it all in my house.

When the game first starts, don't pick one of the first 3 Pokemon. Just keep walking and ignoring them even though they'll keep teleporting in front of you. After some time (5 mins for me) a Pikachu

will spawn with them and there you go. :)

Frankey - July 15, 2016, 3:15 pm

Level 6 at the moment. At the beginning of the day level 3 . Was a great day today. Catches a lot of Pokemon's. And got 4 eggs hatched. Beautiful!

Mix - July 15, 2016, 3:16 pm

I got myself to level 7 today but evolving about 5 different pokemon. hella worth it but took forever to get all the right candy for each pokemon.

Mr. Corleone - July 15, 2016, 3:20 pm

Yesterday I went from level 17 to 18.

Today I went into the city and went from 18 to 21 in like 2 hours.

The amount of fucking lure modules stacked was crazy. Like 4 of them in 1 place.

Also used like 4 lucky eggs :)

Don't mind me, just an honest man, I'm posting this post just to get the award, and I'm pretty sure I'll stay all night :p

Wish me good luck

Senor Suave - July 15, 2016, 8:28 pm

I am lame and I just catch stuff around my house so I am only a level 4.

EthanX - July 15, 2016, 9:19 pm

I've been playing since the 6th and I am only level 7. Work has been heavy and I have no time to play, when I have time I spend it sleeping tbh.

Cam - July 15, 2016, 9:21 pm

Level 6 right now... I work full time though so not a whole lot I can do as far as playing really serious. Kills me that i'm so far behind everyone else now though :/ I'm sitting at a 400 CP pokemon as my best.

Same here. I personally haven't been using the exp trick that everyone else is using. Currently saving up a nice hoard of pokes to try it with soon though. At level 8, almost 9 right now :P

Akamay - July 15, 2016, 9:21 pm

Level 8, almost to 9, want to get to 10 by tomorrow though

Buffy Summers - July 15, 2016, 9:21 pm

Level 15! I've been in Maine for 3 days since leaving Toronto so I can't hunt. There's nothing at all here besides a few gyms twenty minutes away.

FlameSea1 - July 15, 2016, 9:23 pm

Just hit level 16!! My area is full of Pokestops that i just spam

EDIT: Just went out for about an hour and got up to level 4.

EDIT: Level 5 mother fuckers.

I am level 15 with a bunch of evolves stored up. Going to grind for another day then pop a lucky egg and hopefully reach 18 or 19.

Redemption - July 15, 2016, 9:32 pm

I'm level 8 on my phone and level 11 on my computer (I use separate accounts).

Eminem????? - July 15, 2016, 9:33 pm

Currently level 19, but I didn't play for the first 4 days I had the app, so I'm kind of behind. Just grinding gyms rn. Bought a ton of stuff from all of the coins =)

CasperXN - July 15, 2016, 9:33 pm

I'm level 3, I don't play the game a lot, my girlfriend is more into it than I am tbh, but I really like the concept of it.

Elegant - July 15, 2016, 9:35 pm

I've been playing the game for a week now on and off and I'm only level 8. Haven't had too much free time to actually play the game how I really want it to be played. I'm hoping that I will get to a higher level within the next week.

Axanas - July 15, 2016, 9:38 pm

I just hit level 20. :)

I saved up a lot of pokemon and candies, and went from level 17.5 to 20 today.

Premortal - July 15, 2016, 9:44 pm

I'm level 18, but that's mostly because my play time has been pretty inconsistent. I'll either play for six hours at a time or not at all.

King Joey - July 15, 2016, 10:07 pm

I'm level 13 at the moment, will continue to catch em all.. not some of em. ;)

TRAUMA - July 15, 2016, 10:28 pm

Biker BoyZ - July 16, 2016, 6:05 pm

I just tested it and it does work. I named mine "Rainer" and it worked 100 percent. Enjoy!

Form is emptiness, and emptiness is form. I am level 5 at the moment and very close to hitting level 6. Maybe I'll take a walk to the store and see what I can do about that in the process.

Drive around and take over gyms. It was storming hard a few days ago and I went around and took over 4 of them to get the defender bonus. Some guys still managed to take them all down after a few hours.

Long John Blonde - July 16, 2016, 10:11 pm

28 & just about halfway now

SIM-2501407 - July 16, 2016, 10:13 pm

Account #1: Level 13

Account #2: Level 8 (Started like 1 day ago)

Pretty good progress so far, going to be power grinding late night soon. There is a park near me with 7 PokeStops and everybody goes at night and lures them.

Dastoks - July 16, 2016, 10:34 pm

Examine - July 16, 2016, 10:41 pm

Last night I was level 8 then I went down to the beach front and sat in the middle of like 6 lures and went from 8 > 12 catching all the pokemon then using a lucky egg to evolve all that I could.

THE RULER - July 16, 2016, 10:42 pm

Welcome to the 20 game...

Probably the worst thing about hitting 20 is seeing that 50k xp jump...

Then 75k and mate... its only getting worse :P

Good lucky though, hope you find a mew x 3 :P

Juicy - July 16, 2016, 11:02 pm

I started playing a few days ago, and I am up to level 15 now. I just cannot get enough of this game. I have played it non stop and probably will not stop for a long time. It's very impressive
