Don't transfer those Pidgeys to Professor Willow just yet!
Here's a quick tip on how to level up w/ them in Pokémon Go:

You can use them as a super fast way to level up your trainer.

Here's how!

-

So your Pokédex is filling up quick. The problem is, you only have around 250 slots and you've got way too many Pidgeys in there taking up space! Now the prevailing logic dictates that you transfer those little bird brains back to Professor Willow to make room. Instead, keep them and use them to maximize that Lucky Egg time.

-

The Lucky Egg doubles the XP of everything you do, with evolving a Pokémon being one of the highest XP gains you can get.

-

Save up a bunch of candies and Pidgeys until you can evolve like 10 of them in that 30 minutes from the Lucky Egg, and then reap in the multi-thousand XP reward! You can jump 1 to 3 levels like this in no time, depending on how strong your trainer already is. And the higher your trainer level, the better Pokémon you will catch.

-

Now, I've seen people claim to have leveled up their trainers as many as 10 levels at once, but the most I've ever gotten was 2 levels from my Lucky Egg time. Still, that's TWO levels in 30 minutes! Totally worth it. Plus, it gives a much-needed purpose to the Pidgeys' otherwise meaningless existence.

-

Once you've used the Lucky Egg to level up, you can then transfer what are now Pidgeottos back to The Professor or you can try it again. You can evolve those Pidgeottos too, you know.

-

So stop complaining about how many dumb Pidgeys are clogging up your Pokédex and put those little feathered punks to work for you!

I did not find this out but I can't link the source. I take no credit.

Frankey - July 15, 2016, 2:42 pm

Wow. Great tip for tomorrow. I already transferred today's batch. But will do this tomorrow. Is it really that much of a profit?

Choco pie - July 15, 2016, 2:43 pm

Amazing, thanks for this bro. I'm only level 6 so I really needed this

McDolands - July 15, 2016, 2:43 pm

wow great tip man, gonna use this a lot, thanks for taking the time to write up this pidgey farming guide man. Keep up the good work!

Yung Metro - July 15, 2016, 2:43 pm

Great tip you should consider writing one for eve I have so many and I am trying very hard to get it to evolve soon.

A NEW ERA... - July 15, 2016, 2:43 pm

My girlfriend gets so many pidgeys it's not even funny, I'm gonna tell her about this and hope she can make some use of the bird lmao.

Yassuo - July 15, 2016, 2:43 pm

Great tip man. good thing I didn't transfer the pidgey's that I caught

Meow - July 15, 2016, 2:43 pm

I'll try your method tomorrow but I'm pretty sure I transferred most of my Pidgeys to professor, shit. Thanks a lot for this.

TopKekeroni - July 15, 2016, 2:44 pm

Thanks dude, I had a lot of Pidgey that were just sitting in my pokemon stash, they were not doing anything productive, but now I can harvest them to make chicken nuggets filled with XP.

I went from level 11 to 14 just from a lucky egg and a batch of pidgey's. $1k \text{ exp} \times 30 = 30k \text{ exp}$ in 30 minutes. It's a really good way to get levels.

7even - July 15, 2016, 2:45 pm

This is a very useful and informative guide. I've already transferred about 25 pidgey's but now I'll make sure to hold on to them now. Thanks Ryan!

w?????illiam???? - July 15, 2016, 2:45 pm

Seems like a very high quality tutorial. I'll try this I guess. What is the point in power leveling yourself though? Maybe if you're just playing the game to get to max level and quit I guess this would be a good strategy but if you want to have fun why would you power level yourself?

Not hating, just asking. Good guide though. :)

DeadCode - July 15, 2016, 2:47 pm

I saw max 7-9 pidgeys in here. Although it's rattata land. I guess the same technique can be used for any common pokemon

funtela - July 15, 2016, 3:16 pm

Hope you guys enjoy! This has helped me level up pretty fast! I don't see it as cheating, just a better use of the Pidgeys in my opinion.

Scarlett Johansson - July 15, 2016, 3:17 pm

This is actually a pretty damn informative guide. Thanks for all your HQ content bro. I hope to see more of you around the forums and stuffs. pce

findingnature - July 15, 2016, 6:56 pm

I just transferred all my damn Pidgeys. I wish I knew this before I did that. :(

Axanas - July 15, 2016, 8:48 pm

Yeah, save up all pokemon and only evolve with an egg active. I started at level 17.5 today, I got to 18.5 with normal play, then tried going for an EXP push at the end of the day:

I went from 18.5 to 20, didn't expect it to be that much! :)

Telstra - July 15, 2016, 8:50 pm

Did this yesterday when I got home only went from level 15-16 but still good as I was only at the bottom of 15.

Going to head into the city in a minute though and get some more.

Energy Wizard - July 15, 2016, 8:50 pm

This method could be used with other Pokemon as well. You will get additional experience for finding a new Pokemon (the evolutions).

oRequiem - July 15, 2016, 8:55 pm

An actual good tip.

Thank you good sir ?

Will have to do this when I have time =)

Wander - July 15, 2016, 8:56 pm

After screwing around for 15 levels I finally realized that I should have been doing this last night. When I went out today I caught everything and once my next batch of eggs are about to hatch I am upgrading all of my commons.

topdog77 - July 15, 2016, 8:57 pm

Thanks for the guide, helped a lot man, I definitely did not think pidgey's were going to be USEFUL AT ALL. So its nice to know they do have a use, at least for now :P.

Confound - July 15, 2016, 8:58 pm

Hey thanks for this quick tip @ Ryan. Definitely very helpful for new users. Especially me when I got no idea whats going on haha :D

Jesus dude, wish I was lucky with finding these damn Pidgeys lol. All I can find are Drowzee's and Zolbat's in my area. Also guys Weedle's require the same amount of candy as Pidgey to evolve so be on the hunt for those too!

funtela - July 15, 2016, 9:44 pm

Glad you guys are doing well with this tip! I'm saving up all my Pidgeys to do this again once I have a few Lucky Eggs to use haha!

Moxxi - July 15, 2016, 9:49 pm

FYI you can evolve 72 Pokemon in 30 mins (with perfect time so it's probly slightly less in reality)

So thats 864 pidgey candies + 72 pidgeys for MAX exp from this method

you can also use shit like weedles and caterpies (any 12 candy pokemon)

M1L3NK0 - July 15, 2016, 9:53 pm

Thanks for the tip, OP. Definitely using this, especially when I head downtown.

Premortal - July 15, 2016, 9:54 pm

I wouldn't recommend evolving Pidgeottos since they cost 50 Pidgeycandy to evolve. Pidgy costs 12 to evolve and it gives you the exact same amount of XP. Just transfer all the extra Pidgeottos you get.

Yup! Weedles and Caterpies work as well. Any common Pokemon pretty much. It's a great way to level up fast! I leveled up like 4 levels today while I was out :)

CheGuevara? - July 16, 2016, 4:14 pm

Thanks for this guide man, I am sure many people appreciate it. Well written and all.

Dastoks - July 16, 2016, 4:16 pm

I leveled all the way up to 14 with this, thanks for an amazing guide even though i knew it already :) thanks !

?XiS - July 16, 2016, 4:22 pm

Hmm, haven't heard about this method before, might try it out soon. Thanks for this. Haven't caught any Pokemon in ages though.

dyingslow - July 16, 2016, 4:25 pm

where is the best place to find pidgeys?

No problem bro! It works like wonders haha. I might go Pidgey hunting in a bit with my brother. I have a few lucky eggs so hopefully I find enough to level up nicely ;)

Crowley - July 16, 2016, 5:45 pm

Wow dude thanks imma try this

Marshmallow Man - July 16, 2016, 5:45 pm

a pidgey was used to take a gym from me here, so yeah i guess this is a good tip :) thanks op

Let me know how it goes for you! Get some ratatats and other common Pokemon as well. It works about the same as long as they are common! :)

Reward - July 16, 2016, 5:50 pm

I did this on my own randomly and when I was about to evolve my 20 pidgeys I put the lucky egg on BAM! servers down lost my egg looooool

funtela - July 16, 2016, 5:51 pm

Wow are you serious?! Lmao I would be so pissed off if that happened to me. Do you have any more Lucky Eggs though? If not go find some!

Morrakiu - July 16, 2016, 5:53 pm

I was trying to catch Pidgey's like you suggested and I went to the park and was attacked by 1000 sparrows at once because they wanted to eat my Caterpie. Stupid guide did nothing to protect me at all! WHY DIDN'T YOU WARN ME!

Fiz? - July 16, 2016, 5:54 pm

I tried this tonight and got a few levels even without the lucky egg just bc I didnt have any but this strategy is very helpful.

Mr. Robot - July 16, 2016, 5:56 pm

Nice tip - wonder where I saw it before

funtela - July 16, 2016, 5:58 pm

Damn imagine if you had a lucky egg. You would've leveled up twice as much! Try and find one for next time and stock up on Pidgeys! :D

?erenity - July 16, 2016, 7:53 pm

Make sure to do all the transfers BEFORE you pop the egg, otherwise you're wasting time. Also, someone said this is getting patched soon; not sure how accurate that was.
