Thread: [Hebrew Goddess - \\$40 - Paypal Charge Back \(UID 2782265 \)](#)

Armada - July 16, 2016, 5:11 am

Cautionary warning to anyone choosing to deal with User: [Pontius Pilate](#)

Something is super fishy with this users interactivity.

Lets start the story, so I get emailed.

Ok "Whats up here?"

I check the license key against our data base.

Turns out dude tried an Unauthorized Purchase attempt, likely in an attempt to get the software free, and it failed. So License got locked out, as per standard protocol..

Lets MAKE SURE Im not fucking it up here:

Nope, I got the right user despite a different email address being used.

Payment received:

Payment Disputed:

Not much else to say, other than the user continues to deny they ever did this (????)

Dont fucking trust them with Paypal whatsoever.

WebMD says it's official.

Meeting - July 16, 2016, 3:08 pm

What the hell is wrong with him, why is he trying to deny that chargeback

Armada - July 17, 2016, 2:05 am

For someone who's going to take this to HF, they sure seem to have no problem IGNORING a legit report

Y'all make your own decision...

Innocent people defend themselves, not ignore it entirely.

I say I don't accept payment from this clown unless it's BTC only though.

Hasn't replied yet? Well, who would expect him too lol.

Can't wait for him to get closed.

Undefined - July 17, 2016, 7:08 am

He has been PMing me saying that I left him an invalid rep. He said he's going to forward my PMs/reputation to Omni.

AFAIK he'll get rep fucked and/or banned for reporting valid reputation to Omni.

I tend to afree.

I am confused how he was able to open a second unauthorized claim when paypal already made a ruling though. I always thought after they made a decision on the dispute the person could not open the same type of dispute again?
