Confound - July 16, 2016, 1:37 pm

Hey thanks for this. Definitely very helpful. Its kinda crazy to see how much hype this section is seeing because of the game of course, but also the award. Hopefully more people will get it in time.

In?sane? - July 16, 2016, 1:39 pm

Good shit, will get buried by the award hunters though.

Pillows - July 16, 2016, 1:39 pm

What about adding the thread about the Discord server?

<https://hackforums.net/showthread.php?tid=5339933>

Albeit the thread title could be better.

Aura - July 16, 2016, 1:40 pm

What do you suggest for thread title? Will add the Discord thread one. I'll also add the threads flagged as Guides, Tips, Tricks, etc.

Gary - July 16, 2016, 1:42 pm

Ayy thanks for including my thread!

I have a lot of discussion related threads but one is fine ;p

Aura - July 16, 2016, 1:46 pm

I'm trying to add threads that are bound to be created multiple times, or discuss a certain attribute of the game. Feel free to suggest threads that you want to get added.

Just added another of yours too.

It just sucks when multiple threads on the same thing are being created... it somehow triggers me everytime.

Gary - July 16, 2016, 1:57 pm

Hopefully this brings down the spam a little bit and keeps it in the threads.

Formant - July 16, 2016, 1:59 pm

Good shit. Thank you for putting this together and thanks for including my thread ?
Hopefully it doesn't get buried in a hour lol.

Goat - July 17, 2016, 4:24 am

This will help a lot, thank you for taking your time to put this together and thanks for including my thread!

And yes, I also hate when multiple threads with the same subjects being created.

Aura - July 18, 2016, 4:45 pm

Finally I can post in the teams' threads!

Crowley - July 18, 2016, 4:47 pm

AWARD HUNTERS HAHAAHAHAHA.

Literally the best response I've seen this month.

I like how it's a label now ;)

SIM-1729678 - July 18, 2016, 5:42 pm

Thanks for including my thread, so generous of you.

Vince - July 19, 2016, 12:54 am

Not sure if you want to add mine, but it seems to have gotten pretty popular. Detailed tutorial/help desk for Nox and GPS spoofing.

Aura - July 19, 2016, 1:28 pm

Adding it now Vince. Thanks!

Mr. Corleone - July 19, 2016, 1:29 pm

Nice list again man, really helpful all of this.

By the way, why did you not add this to your other thread just to make it really big ;p

Aura - July 19, 2016, 1:32 pm

Which other thread?

Also, should I add threads with hacks, exploits, etc.? Or since they're ruining the game's fun, I should leave them out?

2Chewz - July 19, 2016, 1:38 pm

Someone, please sticky this thread. There are far too many repeated threads in this section.

I can't say you're wrong, but even if you were, they'd probably just repost the same thread anyway :/

Yeah I've seen alot of duplicate threads. I've seen about 5 + threads going on about how to setup bluestacks, and alot for nox and just other shit rofl.

Krule - July 21, 2016, 7:19 am

Looks good mate, i am sure alot of people will make use of this, atleast let's hope, i will go check out a few of these links, thanks haha.

Aura - July 21, 2016, 5:17 pm

Added a few more threads. Am I missing any of the main ones?

Gary - July 22, 2016, 11:47 am

This thread deserves more attention

Aura - July 24, 2016, 6:48 am

I'll be creating a separate section for bots since it looks like more and more keeps appearing everyday.

Jinu - July 24, 2016, 6:53 am

You have such an enormous amount. I'm too low since I'm new. Soon I'll come up with some screenshots.

Aura - July 26, 2016, 7:22 pm

Added the very popular "See a rare sighting? Post coords here!" thread. It got 46 pages in 1 day, so I expect it to be glitch in the future and a new one will need to be created, so keep an eye open for it.

The Silenced - July 26, 2016, 7:48 pm

Very helpful thread man. I just hit level 5, not sure what team to join yet..I want to find a gym in my area and see how bad I will get owned. Don't have to many good pokemon yet..Best one is a 120 CP machop.

Aura - July 27, 2016, 12:02 pm

Added the lounge for the legit players.

Is there any methods to bypass softbans that have been proved yet? If so, I'll add the threads discussing these methods here.

Should I include a different section that deals with softbans and include things such as QuickSpin, softban avoidance, etc.? I know there's a few threads on the subject.

Sakuto - July 28, 2016, 8:46 am

Very interesting thread, thank you for this.

Evanescence - July 28, 2016, 9:56 am

Awesome compilation, don't you deserve more attention?

Tommy Chong - July 28, 2016, 9:58 am

Made this thread earlier due to all the people having questions about being banned and server related shit

<https://hackforums.net/showthread.php?tid=5354641>

Maybe it fits in the list?

W?lf - July 28, 2016, 9:59 am

Thanks for this bud looks very well written and put together. super helpful! I'm sure a lot of people can find use to this. :)

Fistsworn - July 28, 2016, 10:00 am

Thanks for the gathering man grinding hard for that pokeball?

Aura - July 28, 2016, 10:56 am

The award doesn't really interest me. But I believe that without a compilation thread, people would get lost in this section. It needs to stay at the top to work though.

So, should I add a separate section for threads dealing with softbans?

Aura - July 30, 2016, 9:19 am

I feel like I'm missing a shitload of bot threads somehow...

Nerdi - July 30, 2016, 9:22 am

Wow look at you being all helpful OP!
Good list ?

Aura - August 2, 2016, 1:47 pm

Am I missing any threads?

Also regarding bots, hacks, etc. I'll only link threads that have programs that are released on HF (not linking to any other forums, etc.).
