Thread: [Malware Tutorials - How to make your own Malware](#)

Nope.exe - July 16, 2016, 5:35 pm

I posted over in the beginner section, but this feels like the more appropriate area for this kind of post. Basically, I'm looking to make a bit of money, nothing huge. I've been writing malware for quite some time now, and some would consider me something of an expert. Exploitation was relatively new to me when I joined HF, but I've been writing malware for at least 7 years now. If you are interested in learning what goes into malware, some tips and tricks, and the different types of malware and which to use when, PM me for details. I was thinking 5-10\$ for an extensive 1 on 1 discord (basically skype for those who don't know) course. Even if you don't think you wanna pay, message me, we can do a trial lesson of the basics.

bigben2323 - July 22, 2016, 9:27 pm

I would really like to learn. Hope you are ok with Bitcoin. ;)

raresrap - September 8, 2016, 3:22 pm

Paypal is fine as well ? If yes pm me with your skype

thatonetechguy - September 12, 2016, 12:34 pm

What kind of malware? Encryption/Ransomware, Fake A/V? What exactly are you making money on? Do you remote in and "fix" the problem?

Thanks bro i very like you technique off spread 3

YouAreNotUnique - September 17, 2016, 10:42 pm

I would like to learn how to make my own malware too, and when they click the X button it refers them to a pay to have an antivirus remove it. really the antivirus just pays me and then removes the malware.

Chxpo - June 9, 2017, 1:41 pm

i would like to learn about malware willing too pay but i would like to receive a trial lesson first and do you except bitcoin?

muzammil1 - June 11, 2017, 10:57 am

Sounds very interesting but cant pm yet... Im willing to pay for it, is there someway we could contact?

I think you are talking about ransomware.

Ceoper10 - *June 12, 2017, 7:52 am*

I have a better idea

Get real job.
