Quote:Seikyou Private Academy, built on the intrigue of traditional occult myths, bears a dark past—for 60 years, it has been haunted by a ghost known as Yuuko, a young woman who mysteriously died in the basement of the old school building. With no memory of her life or death, Yuuko discreetly founds and heads the Paranormal Investigations Club in search of answers.

After a chance meeting leads Yuuko to cling to diligent freshman Teiichi Niiya, who can see the quirky ghost, they quickly grow close, and he decides to help her. Along with Kirie Kanoe, Yuuko's relative, and the oblivious second year Momoe Okonogi, they delve deep into the infamous Seven Mysteries of the storied school.

Tasogare Otome x Amnesia tells a unique tale of students who work together to shed light on their school's paranormal happenings, all the while inching closer to the truth behind Yuuko's death.

I was reading the Manga a long ass time ago but kind of forgot about it and never bothered watching the anime. Maybe I should pick it up because ghost girls are super moe IMO.

Just finished this, been meaning to for some time but glad I got to watch it. I thought it was going to be darker than it turned out to be, but nevertheless was a decent watch ;)

Glad to see that you enjoyed it :) Really a good watch. I also thought it would be darker at the beginning, though the story is still sad.
