Thread: [\[Android\] Earn PokeCoins with Google Opinion Rewards](#)

This is literally the most simple thing you can do. It takes a bit of time and patience, but you can download the app Google Opinion Rewards. Answering surveys on it earns you credit in the Google Play store, which you can then use to stock up on Pokecoins without having to shell out actual cash. Not really a hack or a glitch, just something I had read up on.

Ah, I will look further into it. That seems to be a common thing with things like this. Released and only available in countries like the US and UK.

When you say that it takes time what do you mean? Would it take like a week to get 10 coins or are you likely to get a few coins per day? Either way, great share man!

It all depend on how much time you want to put into filling out surveys and all that. It's like most ebooks that are being sold here that tell you to fill out surveys and stuff. It's all about time dedicated. The more you fill out, the more you earn.

I could of made this into some long drawn out ebook but I decided it was a nice share for those who dont want to spend their cash on pokecoins.

Wow, after seeing all of the money hungry ebook sellers that are selling "private" methods to make money with Pokemon go I must say I'm shocked that you are giving your method away... Good job sir.

Well a lot of the info in ebooks that are being sold is readily available on the internet with a bit of Google searching. As much as I'd of liked a bit of extra side cash, I thought some useful threads within this section was better route to go.

I've been using the Google Review app for the other mobile games I play and it's fun. A quick and easy way to earn small amounts of in-game currency.

Yeah, I'll vouch for it (hehe...) - It's legit. It's not the best way to earn coins nor the fastest, but it's free, can you really complain?

It's a working method I know. But its a bit slow to do all the reviews. And as usual I live in the netherlands sigh so they don't need my opinion.
