I will respond if:

- I have questions to ask.
- You've been accepted.

I will not respond if:

- You've been denied. Please wait 48 hours for my response before assuming your denial.

Group Terms:

You must post in 48/72-hour Activity Check threads. These will be posted randomly so you must be active.

General inactivity/ghosting will get you kicked.

I have the right to deny any applicant.

Me and my leaders have the right to kick you anytime.

The greatness of a man is not in how much wealth he acquires, but in his integrity and his ability to affect those around him positively.

Applicant: [Krule](#)

First of all, I would like to thank you for taking the time to review my application. I wanna wish everyone good luck as to filling out the application! I hope to see greatness come from this group!

Being apart of a usergroup has always been my type of thing. I hope to make new friends, meet new peers, share my experiences, and more of the same!

A little bit about me:

I am a 19 year old male, who resides in the southern most part of the United States! I enjoy fishing, swimming, going camping, yard work, and enjoy time with my friends and family. I had just graduated high school this past year, and have been spending the majority of my time on HackForums, posting away, doing giveaways and more so of the same. My father had passed away earlier this year and I'm looking for new strategies, new friends, new people to conversate with and chill with, I am also available on skype, my addy is iAmImperial for those who would like to add me. I have a feeling I could contribute a bunch to this group such as doing giveaways, giving away proxies, selling ebook methods, gaming techniques, gaming stratagies, anything related to mIRC and mIRC scripting, IRCD/Chatspace Setups and more of the same. I can also make the activity checks because I am a very active user here on HF. I don't have anything to hide from the HackForums community, So again, good luck to all applicants!

I don't mind if people see my application so here it is:

My name is Shopify and I have a lot of experience with business and marketing and I'm currently getting my degree in business with a concentration in technology marketing in the US. In less than a month and a half me and my partner have grown our company ArenaHost to make over \$250 in that amount of time which is fairly impressive for starting a hosting company from scratch if you ask anyone in this industry and it's still growing. I'm also a private business consultant on and off HF. I take starting business models and concepts and help develop them into a working and profitable business. I'm also in the process of creating an affordable geek squad alternative for my university and eventually for everyone. That's just some of the most defining stuff that I think I have to offer in skills. Plus I think I'm pretty sweet to have a conversation with. Don't get me wrong though I know there are a ton of qualified people on HF. A consideration would be sweet though. Best of luck with recruitment ?

Hello Krave,

First of all I'd like to state that I'm not too familiar with the prettiest response to this so It's gonna be plain. I'll try to keep it simple, since it's not colorful. ?

I'm interested in joining The Order, well beat around the bush, I want to join a group. I feel this group looks more interesting to join then the others. Based on SE and I used to SE, so it'd be interesting to see if I could SE again. I'm sure it's harder now, but nothings ever impossible. I also do gamble, just not too good at it. ?

I could help The Order in some ways. I could represent The Order with some giveaways.

Giveaways could include, money, kiks, emails, just things to give back. It'd make The Order look very very thoughtful and give a better image. [Not Applying it doesn't already, just always better to have more of it.] I am also very active for the amount of time I've been here on HackForums. I also did some currency exchanges and spend a lot of time into that. These are all factors that just "promote" The Order by posts.

If you have any questions please feel free to contact me.

Kind Regards,
Cherry Blossom. ?

General discussion, chilling and having fun. We're like family and it's a lot of fun.

A lot of groups try to serve a specific purpose but often fail and turn into lounge groups. If you're looking to develop SPECIFIC skills then this group might not be for you and the majority of groups may not be what you're expecting.

If you want to have fun with an active community, then this group is your best bet.

K l a u s - November 8, 2016, 6:28 am

Hello! This will be my application for attempting to join this interesting group.

I'm 19 years old, born 1997, and come from Sweden. Currently I am spending my time studying to become a civil engineer, watching movies/shows and browsing hackforums of course.

I would say my strengths are among gaming and vices, where I have play/played League of legends, Overwatch, Counterstrike and Warcraft 3 tft. I have also done a lot of dumb shit when it comes to vices, I am currently clean though, so if there's any questions regarding that I'll always be able to help. Another skill of mine is logical thinking and putting emotions aside when it comes to discussions and important matter.

Alright, I don't want to make this too long so I'll end this right here. If you have any questions at all, feel free to PM me :)

No not really but there's not much you can do to change your application due to the nature of the app.

I usually read the application to learn more about the person, then scan over their profile to make sure everything checks out. Then accept/deny accordingly.

Anyone can feel free to reapply again but it may not change anything.
