Thread: [\[Free Xbox Spamming Method\] Super Dank | Super Fast | Super Reliable!](#)

isp_attacks - July 18, 2016, 12:55 am

So I got bored and I know Xbox is getting old, so I decided to give away my Xbox spamming method. I can only really do 3 letter words such as (fgt, kys, bum,), Since Xbox is weird. But it's free so yea.

I enjoy spamming streamers since they get so mad.

1. Download this [spammer](#). It's not a virus I will show me running the program myself. (I do not take ownership of this program!!! It was made my somebody else!!!)
2. Open spammer. Spoiler [\(Click to View\)](#)
3. Go to [xbox.com](#).
4. Go to your [messages](#). Spoiler [\(Click to View\)](#)
5. Send one message to whoever you're trying to spam so it will be the most recent on the message list. On right side of screen Spoiler [\(Click to View\)](#)
6. Go to the spammer type you message that you want to send to your victim.
7. Click start. But have the Xbox message screen in the back ground!!! Spoiler [\(Click to View\)](#)
8. When you're ready to spam click on the message box on xbox.com, then it will start spamming as you can see.
9. When you're ready to stop, just go back to the program and click stop!

Hope you guys enjoy this!!! It's my first big post/free service type of thing so yea ?
