You do not seem to really trust in your bet to only put 1\$ on them, why would we trust you if even yourself have hard time betting on your "predictions"?

These are tickets of customers of mine. I bet only with bulgarian levas. You can check the way & the amounts I bet at page 1. Also <https://hackforums.net/showthread.php?tid=5406221> is a proof I don't bet below 1000 BGN (500€). When there is interest on the thread I will share my tickets ;)

Sakuto - September 17, 2016, 6:04 am

So, why are you selling cheap ass tickets and access to your skype group if you are already making tons of money? You, obviously, have a hard time finding customers for your products, why not create a free group or invite some members for free to get real vouch, and then easily find customers?

They are a lot of contradictory fact in your thread.

Tons of money I wouldn't say. I usually make between 3000-5000 BGN/month from betting. Sometimes I drop below 2000 profit/month too. Also no one that asked me for a vouch tip got turned

back. Even though a lot of people received free tips that won but didn't joined my service after that. So I'm giving my best to the people that already trusted me, and i work with them fine :)

Even though i dont support this paid premium group, you cant blaim everything on djordjamayna as its betting. You either win or you lose, that's called gambling. I've lost the craziest bets as the noob teams turned out to be the winners. Therefor, someone with a common sense and 15 minutes of free time can do predict sports betting on their own without spending money on vip groups. It's all your own fault.

I mean I don't understand why people think that I'm some magician or some guru. I analyze personal my tips for several hours/day and I give my best picks to them. In betting you never know what will happen, people in group have daily proof that I bet these games too (With more money than the whole group together does, so I don't understand what is that crying. Long turn is profit always with me)
