Thread: [\[TUT\]\[VIDEO\] Playing Pokemon Go on your PC \[EASY\]](#)

SIM-1729678 - July 18, 2016, 8:34 am

So I got 3 PM's and 2 questions on my thread on how I was playing on my PC. I use Nox.

Here is a short video how to, I live streamed how I caught that fucking Pinsir instead of recording it. Good luck playing!

The walking speed is about the same as a bike.

KEEP IN MIND THIS IS CHEATING, I AM NOT RESPONSIBLE FOR ANY BANS, THIS IS FOR EDUCATIONAL PURPOSES ONLY!

Side note, don't over abuse and walk across the fucking Atlantic ocean.

Here is the Nearby' of the park:

Great tutorial! You should add [TUT] to the title! Nice post.

Anyone know what happens during a soft ban? I heard that it last 2-3 hours but does it mean you cant login or what?

I have no idea, never had one.

TheMTGuy - July 18, 2016, 8:40 am

Nice and easy tutorial man. I have been giving people a lot of help too in this section about Nox. Your video explains the most necessary details to get started.

When you get a softban you will notice that you cant use pokestops/gyms and when you find a pokemon and try to catch them they will run away immediately. The time a softban lasts is how much you travelled from your original location. But usually it lasts 1-3 hours.

That was indeed my intention, maybe later I will make a more detailed tut.

Greatest - July 18, 2016, 8:59 am

How easy is it to get soft banned using this?

I have ben playing for about 15 hours now and haven't had a bad, just don't over abuse and walk the oceans.

Albert - July 18, 2016, 9:00 am

^^

Wondering that question myself but thank you for the Tut bro it was definitely helpful and i'm looking to use this when i'm not going out

Crowley - July 18, 2016, 9:01 am

Soft ban is just being banned from using the pokestops and catching pokemon.
You'll waste your pokeballs trying to catch a pokemon cause they will just run away and the pokestops wont ever work.

That's about it nothing to serious lmao

Tymbot - July 18, 2016, 9:01 am

thanks for posting this. been looking for a good tutorial for a while now.

So I am using similair, bluestacks app and also gps spoofer to play on PC, i moved to my towncenter and could play, I stood at 3 pokestops (all together) and played for a couple hours.. I didn't hop anywhere infact I didnt move once, and I was soft banned?? Is it possible it just detects GPS spoof regrdless? or perhaps if you stay still for over set time??

Greatest - July 18, 2016, 11:34 am

Dunno about anyone else but when I download Nox it just freezes the whole PC and I have to manually restart.

Sorry to hear this happens mate, but for me it works great.

Regan - July 18, 2016, 12:54 pm

Giving this a try just now mate, sadly where I live even if I travel out of town its all shit pokemon.
weedle everywhere.

@Jupiter - July 18, 2016, 12:55 pm

This is great for when its raining :)

Other than that, god damn lazy people.

So if you had your app turned off for several hours then loaded up in a new country it wouldn't soft ban if the amount of time it took to get there was within reason?

I actually switched from Australia to The Netherlands within 10 minutes, no soft bans.

Well the bans aren't instantly.

They probably do the bans manually, so your name is probably on a list.

#Skyline - July 18, 2016, 5:39 pm

Thanks for sharing this dude, I'm going to refer to this thread when I setup Pokemon Go on my computer.

To bad it's counted as cheating, but meh.

frowneyface - July 18, 2016, 6:47 pm

Is the file safe to download? No bullshit in it?

Vince - July 18, 2016, 9:56 pm

I added your video to my huge tutorial from the thread I posted. Just referencing here and letting you know :p

Stashyy - July 18, 2016, 10:00 pm

Well this is insane, thanks man!

Gonna be using this around this time of night instead of bluestacks. :P Can't wait to catch some sick new pokemon now.

Don't use your main account.

Better to be safe than sorry, if it's something you think would be regrettable, don't do it on your main account.

Make a separate account.

Dastoks - July 18, 2016, 10:59 pm

Will try this at home once i get back from my base !

This is great if i works i will make an dump account and jump straight to NYC and stay forever on central lark. Epic

Cloaked. - July 19, 2016, 1:39 am

Hmm, this looks interesting, thanks for sharing it :)

Going to try it now. I'm probably going to use it on my main account and just roam around my local area when I'm at home and then just play on my phone when I go out.

SIM-1729678 - July 19, 2016, 10:33 am

Just got a soft ban, FUCK.

Fitzpatrick - July 19, 2016, 4:59 pm

Jeez, definitely looks like you found a Pinsir spawn... 4 definitely confirms that. I found a Jynx spawn earlier with 5 on the radar as well.

Lol this made my day ?? hahahaha thanks for sharing m8

Jesus guys how do you control this sh*t lol, I'm using WSAD keys but it's moving where it wants god damn it, this is hard XD

Any advices?

Nevermind, I just found that you can move using the location option and using the google map :D

You won't be able to use pokestops, catch pokemon or battle gyms.
