Thread: [Banned Users' Ignore Lists](#)

I'm not sure if this is a bug or not, but Nysta had me ignored before he got banned for a few months. He may still have me ignored, but I'm able to view his profile just fine.

Just a small bug.

I swear you've always been able to view people who's on your ignore list, you just can't pm or they can't pm you.

I think you can view their rep and such but it won't let you see their profile.

Nah, it changed. You are only able to view their reputation, but not their profile.
