Thread: [Method to buy altcoin awards without having a wallet](#)

This is completely public, and most likely common knowledge.

Say you wanted to buy the ethereum, dogecoin, litecoin awards. You don't have a wallet or can't get it working. Simple solution!

Use <http://shapeshift.io>, and put the destination address for your altcoins as the one you get on the coinpayments page. BAM.

sounds awesome, nice share, how much it charges for the service?
also how long it takes to complete it?
