Thread: [\[DISCOUNT\] Improve your gameplay with the help of Challengers](#)

:D - July 21, 2016, 3:10 am

I'm launching a new coaching site soon where players who wish to become better at the game can do so by 1 on 1 vod reviews with Challenger players.

I need to build a few sample replays for the site so I'm offering vod reviews at a discount rate - this is available for the following positions:

Top

Mid

ADC OR Support

These will normally be \$25 for one live session (i.e. you record the game using lolreplay or replay.gg and the Challenger coach screen shares with you on skype while running through your replay) but I'll be doing these for just \$15.

One session per person at this discounted rate.

Sample JUNGLE replay (actual gameplay starts at 11:16):

Vouch for :D and his team of coaches. I'm the Master Yi in that video (I know I suck), but the coach was just awesome, always offered help through Skype even before/ after the coaching session.

Thanks! ?
