I received a vouch copy from OP and When reading it, it gives you very detailed steps to go and secure your account, Some of these methods I did not know about that will surely secure my social media accounts from being stolen/pulled from me. The grammar is very nice and the layout is clean, It's straight to the point and teaches you how to secure an account 1 step to another.

I vouch for this method completely and I know for a fact that this will help you keep your SM's safe!
