Troubleshooting

Q: I have 2FA enabled on my Google account, can I still use this?

A: YES! <https://support.google.com/accounts/answer/185833?hl=en>

(Jul 25, 2016 11:54 PM)ninehell88 Wrote: [\[CITE\]](#) Hi, i was sure the system culture were correct but i tried to reworked it by changing System Culture in Windows 7 and now GoBot went smoothly . Here's how i fix coordinate problem, in case someone also got this problem:

1. Open Regional and Language Options
2. Under "Format" pick another regional setting (eg: English (United States)).
3. Press "Apply"
4. Under "Format" pick your original desired locale (ie: Finnish)).
5. Press OK.

SIM-1729678 - July 22, 2016, 2:55 am

YES YES YES YES YES! Would be amazing!

Decentral - July 22, 2016, 2:57 am

Would definitely use it. Please release

Ricy - July 22, 2016, 2:58 am

THATS FUCKING SICK DUDE!!!

Cecilia - July 22, 2016, 2:58 am

The good thing about it is that it does not rely on the "Logic" or "Console" projects from the official repo meaning when updates are pushed (THEY ARE PUSHED EVERY 30 MINS xD) the bot can easily be updated :)

UnrealApp - July 22, 2016, 2:59 am

Would love this dude! Looks awesome so far!

SIM-2223238 - July 22, 2016, 3:02 am

I'd suck you off for this man.

TOTAL25 - July 22, 2016, 3:05 am

Can you add clean up bags so there is always room for Pokeballs!

TheSuspect - July 22, 2016, 3:05 am

I just started using the rocket API and this looks like it would be great, when would you be releasing it if you don't mind me asking?

WienerNips - July 22, 2016, 3:06 am

This would be amazing! Would make Notting extremely easy!

Conscious - July 22, 2016, 3:08 am

Would be very cool OP!

Maybe implement something similar to <https://pokevision.com> as well!

Dembe Zuma - July 22, 2016, 3:09 am

Your programming skills are awesome !

Botato - July 22, 2016, 3:17 am

Definitely interested in this! I would love to test it out haha

#ShamelesslyAsking4aCopy

Cecilia - July 22, 2016, 3:20 am

(Jul 22, 2016 03:05 AM)TheSuspect Wrote: [CITE](#) I just started using the rocket API and this looks like it would be great, when would you be releasing it if you don't mind me asking?

I want to add recycling options. I am not going to add 'multi' account support as people would (I feel) abuse it.

Maybe a half day?

Menacing - July 22, 2016, 3:24 am

Another forum, not going to mention has been making a GUI as well for this same Github repository I believe. Not going to mention them since not here to advertise at all.

But it looks like this:

Spoiler ([Click to View](#))

murt - July 22, 2016, 3:27 am

THIS IS BETTER THAN PORN OMG

Menacing - July 22, 2016, 3:28 am

Just a heads up that GUI I linked isn't done, just being made. I'd love something like that if you could do that LaPanthere!

It'd be so sexy.

Cecilia - July 22, 2016, 3:32 am

(Jul 22, 2016 03:28 AM)spirits Wrote: ([CITE](#)) Just a heads up that GUI I linked isn't done, just being made. I'd love something like that if you could do that LaPanthere!

It'd be so sexy.

Heh, my aim is not to make a UI that looks good.

I like to make a bot that works well.

You don't actually >need< a map to have a working bot.

People rely on the actual api as a bot which is why I want to release a bot instead independent from the actual project.

05317832892 - July 22, 2016, 3:42 am

I would love this, this looks amazing, just give the application a real title please, something more parent appropriate. XD

Shorta - July 22, 2016, 4:01 am

I would love it, I was actually going to try and make something similar and if you release yours open source/no obfuscation it would help me a lot.

Cecilia - July 22, 2016, 4:22 am

(Jul 22, 2016 04:01 AM)Shorta Wrote: ([CITE](#)) I would love it, I was actually going to try and make something similar and if you release yours open source/no obfuscation it would help me a lot.

Hehe, this'll probs be a filler till their official UI is out (idk when).

Reporter - July 22, 2016, 4:23 am

Holy fuck it looks sick

Any date on release?

docteur13 - July 22, 2016, 4:58 am

This project look awesome.

Will it be more stable than the console version or you are just gonna add an interface to it ?

Lor?d - July 22, 2016, 4:59 am

Holy shit dude.

I want this. Like now

Like you should totally pm me this.

Like now.

Please.

Cecilia - July 22, 2016, 5:08 am

(Jul 22, 2016 04:58 AM)docteur13 Wrote: [\[CITE\]](#) This project look awesome.

It has different features.

For it being only 7 hours old I cannot tell you whether it is stable or unstable (and cant test rn because ptc down).

xLelouch - July 22, 2016, 5:17 am

Another great job by LaPanthere. I'm definitively interested in this.

Kkkrabs - July 22, 2016, 5:30 am

Absolutly dude thanks a lot for this

Cecilia - July 22, 2016, 6:41 am

Pre-release.

Download in the OP.

Don't spam me with PM's about bug's.

THERE WILL BE BUGS.

Weltmonarch Hxnso - July 22, 2016, 6:44 am

Here's an actual picture, looks pretty sick

Anth?ny - July 22, 2016, 6:45 am

Looks pretty solid dude. Gonna check it out soon.

Cecilia - July 22, 2016, 6:46 am

(Jul 22, 2016 06:44 AM)Angry Hxnso Wrote: [\[CITE\]](#) Here's an actual picture, looks pretty sick

Just actually make SURE to check those two boxes UNDER your password.

I have ONLY tested with PTC.

Manefiq - July 22, 2016, 6:48 am

So far the UI works well, the only feature I'd request right now is the ability to set Duplicate Transfer's and keeping the highest CP.

Cecilia - July 22, 2016, 6:50 am

(Jul 22, 2016 06:48 AM)Quiickted Wrote: [\[CITE\]](#) So far the UI works well, the only feature I'd request right now is the ability to set Duplicate Transfer's and keeping the highest CP.

...

Duplicate transfers are done each time you get a pokemon that meets requirements.

Be aware that IV was NOT implemented on duplicate transfer checking.

CP still works on it.

Weltmonarch Hxnso - July 22, 2016, 6:50 am

(Jul 22, 2016 06:46 AM)LaPanthere Wrote: [\[CITE\]](#) Just actually make SURE to check those two boxes UNDER your password.

Just you.

Reward - July 22, 2016, 6:53 am

Hi bro nice tool can you add option to keep 3 of highest CP pokemon but transfer all ones below that CP I know there was a line of code in the PokeColour one that did this

Cecilia - July 22, 2016, 6:53 am

(Jul 22, 2016 06:50 AM)Angry Hxnso Wrote: [\[CITE\]](#) Yea google isnt working , at least for me

but still great work.

You sure that's google's problem?

Hmmh.

Disappear. - July 22, 2016, 6:54 am

Omg. I'm just gonna test it out asap. Seems very interesting .

Kuso - July 22, 2016, 6:55 am

Wow. It's kinda cool. I didn't think all these bots would be progressing out this much. The game is still pretty new lol.

Cecilia - July 22, 2016, 6:57 am

(Jul 22, 2016 06:53 AM)Reward Wrote: [\[CITE\]](#) Hi bro nice tool can you add option to keep 3 of highest CP pokemon but transfer all ones below that CP I know there was a line of code in the PokeColour one that did this

By default your pokemons that are favourites will not be transferred (according to the code here).

Byze - July 22, 2016, 6:57 am

U need to add the feature that u thro away unneeded items :D

Reward - July 22, 2016, 6:58 am

(Jul 22, 2016 06:57 AM)LaPanthere Wrote: [\[CITE\]](#) By default your pokemons that are favourites will not be transferred (according to the code here).

No I know that but what I mean is can you make it so it keeps highest CP of say 3 eevees then transfers all the rest below that keeping highest CP, then if it finds another one thats higher it will transfer the lower one

Cecilia - July 22, 2016, 7:02 am

(Jul 22, 2016 06:58 AM)Reward Wrote: [\[CITE\]](#) No I know that but what I mean is can you make it so

But it looks like this:

EDITED CAN'T POST LINKS

This is reported as a fake project, looks like there is a rat somewhere ?

Thanks for the release !

Cecilia - July 22, 2016, 7:10 am

(Jul 22, 2016 07:06 AM)Reward Wrote: [\[CITE\]](#) Also I dont think your "All" tabs work I ticked all but I still have duplicates in my pokemon folder

As I said, it only transfers duplicates on certain conditions.

That is if a pokemon was caught and kept. I will move it to every pokemon capture no matter what.

The all selectors work for me here... can you screenshot your settings?

Reward - July 22, 2016, 7:12 am

(Jul 22, 2016 07:10 AM)LaPanthere Wrote: [\[CITE\]](#) As I said, it only transfers duplicates on certain conditions.

granz???????????????? - July 22, 2016, 7:17 am

Looks pretty sick man, will make sure to use this when i start botting.

05317832892 - July 22, 2016, 7:26 am

Amazing, maybe add a feature to auto incubate eggs? So it automatically reuses the free incubator after an egg hatches????

Cecilia - July 22, 2016, 7:29 am

(Jul 22, 2016 07:26 AM)?Cam? Wrote: [\[CITE\]](#) Amazing, maybe add a feature to auto incubate eggs? So it automatically reuses the free incubator after an egg hatches????

I'll look into it... not going to promise everything.

Need to actually get it working with google first.

8miles - July 22, 2016, 7:55 am

Nice man!

I am trying this now!

Its stuck on:

Bot has been stopped and has reached the start point used..

help

CONN3X10N - July 22, 2016, 7:59 am

Does this work by any chance?

Anyone tested it out?

Dem?n - July 22, 2016, 8:07 am

They are getting better and better. This is really cool and high quality of you to make. Thank you for making this for the community.

Cecilia - July 22, 2016, 8:09 am

VERY Small update pushed.

Please be aware FeroxRev has removed his Logic projects from the API.

I really hope he continues to update the API as it is fantastic.

Mino - July 22, 2016, 8:10 am

(Jul 22, 2016 08:09 AM)LaPanthere Wrote: [\[CITE\]](#) VERY Small update pushed.

Please be aware FeroxRev has removed his Logic projects from the API.

We all still have it so its ok, others will keep developing.

he might still work ont he api just not the bot

LilDurk - July 22, 2016, 8:17 am

LaPanthere back at it again with the sexy programs, thanks for this fam will try this out real soon when I'm on my pc.

Meow - July 22, 2016, 8:49 am

Looks like it's buggy (obviously), has this happened to anyone or just me?

POLY MATH - July 22, 2016, 8:50 am

The issue with the bots on other forums is that they are constantly adding features but not fixing bugs. Don't be like that LaPanthere.

Dastoks - July 22, 2016, 8:57 am

Thats alot ! will definetly be using this to mass transfer and evolve my pokemons !!
100% sure it will be a goldmine, amazing. thanks for a great release buddy

Annoited - July 22, 2016, 9:42 am

Great bot, thanks for this man, working perfectly! ?

Mr. Thijs - July 22, 2016, 9:45 am

Mine keeps Starting Execute on login server: PTC and doesn't do anything else then that. I just made a new account, and did the tutorial on my phone.

Andy?? - July 22, 2016, 9:49 am

DAMNN that looks so much better than the pokecolor lol
Anyone know how buggy it is though?

WienerNips - July 22, 2016, 10:03 am

I would change to <https://github.com/NecronomiconCoding/Pokemon-Go-Bot> or <https://github.com/DetectiveSquirrel/Pokemon-Go-Rocket-API> for the bot. Seems like Feroxrev stopped development for the bot.

Reward - July 22, 2016, 10:09 am

(Jul 22, 2016 10:03 AM)WienerNips Wrote: [\[CITE\]](#) I would change to <https://github.com/NecronomiconCoding/Pokemon-Go-Bot> or <https://github.com/DetectiveSquirrel/Pokemon-Go-Rocket-API> for the bot. Seems like Feroxrev stopped development for the bot.
Its continued on here <https://github.com/NecronomiconCoding/Pokemon-Go-Bot>

Splice - July 22, 2016, 10:12 am

dope program man. I have been wanting something like this

WienerNips - July 22, 2016, 10:14 am

(Jul 22, 2016 10:09 AM)Reward Wrote: [\[CITE\]](#) Its continued on here <https://github.com/NecronomiconCoding/Pokemon-Go-Bot>I posted that link in my comment lol. But yeah I'm trying this bot right now. It's functioning really well!

Pronghorn - July 22, 2016, 10:31 am

not working for me transfers items then stops :/

?Stark - July 22, 2016, 10:43 am

thanks but not work in win 7 because .net error, and i cant fixed it
is this possible that i can use below dot net version 4??

TheMTGuy - July 22, 2016, 10:53 am

Nice program dude, Gonna try it out now.

StevesTrolls - July 22, 2016, 11:24 am

This is actually working really well at the moment, catching some great stuff - haven't encountered any bugs so far - do we have to enter an altitude value (M/KM/FT)?

Kuso - July 22, 2016, 11:28 am

Seems amazing but I will continue colorPOGO till this is near flawless like color.

StevesTrolls - July 22, 2016, 11:35 am

What settings are working to get the most good items/pokemon for everyone?

rowxs - July 22, 2016, 11:36 am

i dont know why but it seems like it pokemons strangely gets away too often.

StevesTrolls - July 22, 2016, 11:37 am

(Jul 22, 2016 11:36 AM)rowxs Wrote: [\[CITE\]](#) i dont know why but it seems like it pokemons strangely gets away too often.

Sure you haven't been SoftBanned?

rowxs - July 22, 2016, 11:42 am

no sir im able to get poketsops with items and xp but pokemons are sometimes caught but most of the time they escape my statsitic syays 30 pokemons caught an hour....

Constantine32 - July 22, 2016, 11:52 am

I fucking love the statistics tab, this is awesome!

rowxs - July 22, 2016, 11:55 am

Also the transfer doesn't work On the all checkmark

POLY MATH - July 22, 2016, 11:57 am

(Jul 22, 2016 11:42 AM)rowxs Wrote: [\[CITE\]](#) no sir im able to get poketsops with items and xp but pokemons are sometimes caught but most of the time they escape my statsitic syays 30 pokemons caught an hour....

That's just the bot. I'm sure it will be optimized in the future.

Alterations - July 22, 2016, 11:57 am

This looks pretty good, Im currently using Pokecolor and its working like a charm.

waelcol1 - July 22, 2016, 12:13 pm

Is there a video tut on how to set this up, or is it that easy to setup.

Don't bash me I'm just a rookie when it comes to this. thank you.

King of Diamonds - July 22, 2016, 12:17 pm

<http://prntscr.com/bw9907>

Wat is going on pokemon down?

<http://ispokemongodownornot.com/>

Suggestion: Add option to only keep the highest CP Pokémon of every type, transfer the rest. Edit: the rocket api console already has this.

Mi2414 - July 22, 2016, 3:24 pm

This would be pretty cool an useful.

Monostable555 - July 22, 2016, 3:28 pm

Thanks for this bot it looks great and works without any problems, just wish that it would have auto scroll but it's easy to fix with the source code available!

Mon3aan - July 22, 2016, 3:29 pm

What does the IV stand for?

Hunting Rifle - July 22, 2016, 3:37 pm

(Jul 22, 2016 03:36 PM)Fictional Wrote: [\[CITE\]](#) Still says starting execute on login server: Ptc

even though the website youlinked says its up.

See the yellow and red? It's unstable, was down when I linked it.

weeman2412 - July 22, 2016, 3:51 pm

Is it normal for the bot to be this slow? Using the exact same spot I could gain much more exp and pokemon in the same time frame using any other bot. The scan is also pretty horrendous, it just flat out ignores all pokemon in lure areas.

Mon3aan - July 22, 2016, 3:51 pm

Got a couple of questions, would appreciate any response

- What are the best settings for catching + evolving pokemon for an account lvl 15-20
- Does this work with google accounts?
- Why does it keep missing pokebals on 80cp pokemon on a lvl 19 account?

Thanks a bunch

(Jul 22, 2016 03:51 PM)Mon3aan Wrote: [\[CITE\]](#) Got a couple of questions, would appreciate any response

- What are the best settings for catching + evolving pokemon for an account lvl 15-20
- Does this work with google accounts?
- Why does it keep missing pokebals on 80cp pokemon on a lvl 19 account?

Thanks a bunch

Catch all pokemon. Wait until you have a lot of pokemon to evolve. Use lucky egg + set bot to only evolve pokemon.

Yes.

It doesn't miss. If the pokemon gets away constantly, you either have no balls left or soft banned.

Mon3aan - July 22, 2016, 3:58 pm

(Jul 22, 2016 03:57 PM)SL x TnT Wrote: [\[CITE\]](#) Catch all pokemon. Wait until you have a lot of pokemon to evolve. Use lucky egg + set bot to only evolve pokemon.

Yes.

It doesn't miss. If the pokemon gets away constantly, you either have no balls left or soft banned. Definitely not soft banned, got about 20 ultra, 25 great and 55 normal.

So this should be fine?: <https://gyazo.com/ed42169429959e5a7858089ba5da465d>

Mango? - July 22, 2016, 4:01 pm

You could do ones for eggs and pokestops which would be extremely useful but how do you plan on preventing bans? Niantic has made other games like this

weeman2412 - July 22, 2016, 4:19 pm

(Jul 22, 2016 04:01 PM)Mango? Wrote: [\[CITE\]](#) You could do ones for eggs and pokestops which would be extremely useful but how do you plan on preventing bans? Niantic has made other games like this

It wouldn't really matter at this point. Getting to 20+ takes less than 2 days with a bot. They can ban us until their fingers are blue, we'll come back with a whole army of bots and continue like nothing happened.

If you want to bot but are afraid of bans, don't bot, easy.

Mon3aan - July 22, 2016, 4:24 pm

This is what I keep getting when using an older account (4 days) <https://imgur.com/a/4LtpF>

but a fresh account works fine.

(Jul 22, 2016 08:50 AM)TRADOC Wrote: [\[CITE\]](#) The issue with the bots on other forums is that they are constantly adding features but not fixing bugs. Don't be like that LaPanthere.

I am not about adding features without fixing bugs.

If I can replicate bugs, or get people to actually PM me when they have a bug (we can go through it then).

If you hit the stop button it will NOT immediately stop, so if you aim to press the 'start' button ASAP afterwards good luck, the bot will bug and you'll end in a miserable mess.

(Jul 22, 2016 09:45 AM)Mr. Thijs Wrote: [\[CITE\]](#) Mine keeps Starting Execute on login server: PTC and doesn't do anything else then that. I just made a new account, and did the tutorial on my phone.

Servers were clearly down, if it throws errors the most likely cause is the servers are down.

More than likely softbanned.

??????? - July 22, 2016, 5:00 pm

Love the UI, Great work.

What is the radius in which the bot "walks" i know this is more of an API question but wondered if anyone knew.

Also how long does this take to fully stop once clicked?

xLelouch - July 22, 2016, 5:08 pm

(Jul 22, 2016 04:55 PM)LaPanthere Wrote: [\[CITE\]](#) More than likely softbanned.

It would be nice to have some recommended settings.

1. Just auto fill using some default settings - Ex : Location NYC central park, Transfer options - duplicate(keep highest cp and transfer all others)

2.Settings tab - for each levels. 0-10 , 10-15 , 15-20++

I personally think adding entire tab of setting is kinda useless for now because its still new but autofill with common settings would be nice.

Cecilia - July 22, 2016, 5:11 pm

Mind replying this? Please really want to try it out

FearBeta - July 22, 2016, 5:28 pm

I'm not sure if this is a glitch or if I messed up my setting, but the first time I tried it on Santa Monica it went crazy on stops and catching pokemon.

I tried it again a couple hours later on the same location and it's getting pokestops around every 3 minutes now and catching 1 pokemon every 5 minutes.

Seems to have slowed down tremendously, might just be the location.

Anyone know any good locations near Los Angeles, I'm not trying to get soft banned. I'm not really sure of any decent locations apart from Santa Monica.

Lastly, the program is amazing. One of the best I've used so far, amazing job!

xJobson - July 22, 2016, 5:34 pm

Sick tool bro although it recycled all my items :P still looking forward to using it, Great work

I think it just releases them afterwards, but catches them for the XP.

I agree with the settings though, would be helpful not having to edit what to discard everytime.

STYLING - July 22, 2016, 5:55 pm

will test this out soon, thanks for posting this bot. btw, can u get any form of ban using this? this
seems automated quite a bit so its kind of scary to use

pubmaster - July 22, 2016, 5:56 pm

for some reason in throws my pokebals even if i didnt have 100 :D

FearBeta - July 22, 2016, 5:57 pm

Just to clarify, I should wait till I reach my starting point when I end it before I start the bot again?

OnlyFinesse - July 22, 2016, 6:02 pm

This bot if pretty fkcing sick man. Nice one.

SIM-1091100 - July 22, 2016, 6:11 pm

Vouch for this guy. I've known this twat for probably 5 years on here now.

Nice Net Bro - July 22, 2016, 6:12 pm

Can i leave the altitude blank or idk what to put there since its not walking for me :s

djcrisp - July 22, 2016, 6:21 pm

got a few ideas its working great it just seems to not be catching many pokemon and im in a city where theres none stop pokemon lures maybe a bug

auto lucky egg would be amazing

UI dosent register how much stardust you get maybe a bug

could have a run time like how long it has been running to monitor it

dosent seem to track items removed either probably a bug

thats all i have at the moment but great work and thanks

(Jul 22, 2016 06:12 PM)Nice Net Bro Wrote: [\[CITE\]](#) Can i leave the altitude blank or idk what to put there since its not walking for me :si put 10 and seems to be fine

i put 10 and seems to be fine

It does not track any items removed.

It's simply telling you how many have been caught.

For the person who was complaining that it catches stuff even when not wanted, it does that for pure XP. There is not a great way to actually 'leave' a battle with the api I am using.

FunctionDev - July 22, 2016, 7:23 pm

Loving the bot. I was curious if you could possibly create an auto dueler so you can always win while taking over gyms? Might not be possible but hopefully it is.

Should be possible to filter out the pokemon to attempt to catch, right? Unless he meant by CP. Haven't look to see if that's given before encountering a pokemon.

(Jul 22, 2016 07:23 PM)FunctionDev Wrote: [\[CITE\]](#) Loving the bot. I was curious if you could possibly create an auto dueler so you can always win while taking over gyms? Might not be possible but hopefully it is.

I'm not sure if those requests have been added to the API yet.

Cecilia - July 22, 2016, 8:46 pm

<https://github.com/Panthere/GoBot/releases>

New release.

Fixed a few bugs

Added overrides to evolve/transfer at any stage

Settings for pokemon/etc are NOT yet saved.

Event log reworked

Integrated with the API from Necro (thanks!

<https://github.com/NecronomiconCoding/Pokemon-Go-Bot>)

Not terrible when resized

Updated statistics (reset settings button on the page too!)

Just remember, this is NOT an actual release, this is expected to have bugs. Your feedback is VERY important.

Make sure you use your system culture for decimals/commas for altitude. If event log tells you that it cannot parse, immediately exit the bot (you will be set to 0, 0!).

Tell me more bugs, features cannot be added without a semi-stable base!

(Jul 22, 2016 07:31 PM)ThatsComplex Wrote: [\[CITE\]](#) this only works with PTC accounts? Google has worked for some, not for others.

?erenity - July 22, 2016, 9:06 pm

Nice work Panth. I remember you back when steam was big, never have been disappointed in your releases. ;)

Xepher The Cat - July 22, 2016, 9:27 pm

How do I find altitude? I'm kind of stupid.

sevv - July 22, 2016, 9:29 pm

It is indeed 'dropped' (prerelease kinda alpha)

Just click on the Third Release.

The Fourth release will be sometime later (maybe 4-5 hours?)

Faceoffear - July 23, 2016, 1:11 am

Whenever the bot tries to transfer pokemon, even a 10 CP one, it says it is over requirement, is there anyway to fix this?

Cecilia - July 23, 2016, 1:24 am

(Jul 23, 2016 01:11 AM)Faceoffear Wrote: [\[CITE\]](#) Whenever the bot tries to transfer pokemon, even a 10 CP one, it says it is over requirement, is there anyway to fix this?

Look at the CP AND IV of it, and compare it against your 'transfer' settings.

Weird, I have not seen an error for this.

Kobe Bryant - July 23, 2016, 1:32 am

(Jul 23, 2016 01:24 AM)LaPanthere Wrote: [\[CITE\]](#) Look at the CP AND IV of it, and compare it against your 'transfer' settings.

Getting the same issue as him.

??????? - July 23, 2016, 2:12 am

Just to way in on the transfer issue, got the same one.

Got it set to transfer any under 500, yet it's caught 300 pokemon and a lot are below 500.

Everything else works flawlessly.

I am being stupid here but what is IV? I've got mine set to 25 which I assume is the problem as that was the default setting

Found what IV stands for, but what stat does that adhere to in this bot? Would think that's an unneeded option for this since most will go off the CP alone?

CHAOS - July 23, 2016, 2:26 am

Thanks for the share man, gonna try this out with a google account and see what happens.

The GRim - July 23, 2016, 2:27 am

Why do I keep getting this?

Enter the code displayed on your device

There's no code in the device either.

If you are soft banned there is nothing you can do but wait.

It varies from 30 mins to 4 hours it seems.

Just keep trying to catch stuff. If they run away every time and you get no exp from pokestops, you are soft banned.

Panthere, can you elaborate on what i asked about the IV thing please without knowing what this bot considers the IV it's hard to transfer everything.
Or is there a way for it to disregard the IV and just go via CP?

Not sure if other bots display it, but I've noticed a "CatchFlee" happens when I can't get pokestops.

"CatchEscape" is when I can get pokestops. Guessing that "CatchFlee" is an indicator of a soft ban.

Has anyone gotten a "CatchFlee" while still being able to farm pokestops?

Sleek. - July 23, 2016, 4:06 am

How fast is it? Cause the one FeroxRev put up had so many unnecessary sleeps/delays

Mon3aan - July 23, 2016, 4:06 am

Regulus - July 23, 2016, 4:49 am

So I'm here now, how do I do now?

Login to my Original Pokemon GO Account?

[img]http://image.prntscr.com/image/7f5f7a05ba2c4de1bdd59cd021001c92.png[/img]

Xeder - July 23, 2016, 4:52 am

Seriously though, am I the only one getting stuck at login?

Cecilia - July 23, 2016, 4:54 am

(Jul 23, 2016 04:52 AM)Xeder Wrote: [\[CITE\]](#) Seriously though, am I the only one getting stuck at login?

One of the only ones it seems.

I've not had any actual bug reports from PTC login.

Xeder - July 23, 2016, 4:56 am

Well its funny, because I now tried second release and it works fine, but every time I tried with the third it was stuck at login.

Regulus - July 23, 2016, 4:57 am

I have no clue what to do now, I clicked the login button but now it only shows "Stop"

I'm such a noob at this but wanna try it out so bad haha :(

Xeder - July 23, 2016, 5:00 am

Well if you set up all the stuff and clicked on start, everything that happens with your character is shown in Event Log tab.

You can also check out Statistics tab for some info.

Regulus - July 23, 2016, 5:06 am

(Jul 23, 2016 05:00 AM)Xeder Wrote: [\[CITE\]](#) Well if you set up all the stuff and clicked on start, everything that happens with your character is shown in Event Log tab.

Yeah well I'm having problems with finding like the Latitude Longitude etc.

Not sure what to put there.

immaboat - July 23, 2016, 5:09 am

Been trying for the last day to install visual studio, getting errors everytime. think i've tryed every fix that i can think off. Any workarounds for visual studio?

Xeder - July 23, 2016, 5:11 am

(Jul 23, 2016 05:06 AM)Regulus Wrote: [\[CITE\]](#) Yeah well I'm having problems with finding like the Latitude Longitude etc.

Not sure what to put there.

Lets say you want to farm pokemon inside central park. Go to google maps, write central park in it and you will be able to click anywhere inside of it. Then you can notice that the Latitude and Longitude is shown at the bottom of the page in a small popup box for example

50 85th Street Transverse
New York, NY 10128, USA
40.782111, -73.964023

You just copy it. As for Altitude I'm not sure if it is necessary, but if yes then just google <city> altitude and it should be shown.

As for where is the best spot to farm them, this I don't really know, but I think you could find that in google.

The GRim - July 23, 2016, 5:12 am

Can someone please help me set this up.

Xeder - July 23, 2016, 5:13 am

(Jul 23, 2016 05:12 AM)The GRim Wrote: [\[CITE\]](#) Can someone please help me set this up. I'm new at it myself, but feel free to drop me a PM, I will try to help as much as I can :)

Cecilia - July 23, 2016, 5:13 am

Fourth Release:

<https://github.com/Panthere/GoBot/releases>

Added Auth Token field on switch to Google Auth

Transfer override entirely reworked (BE EXTREMELY CAREFUL, you can transfer every pokemon you own, NOT GOOD!)

Evolve override reworked (Be careful, seriously).

Added account details page (pokemon, items, balls, etc).

Added runtime to stats!

Added Teleport mode (DO NOT USE UNLESS WANTING A BAN)

Added No Delay mode (Risky, very risky).

Changed other things and tried to fix bugs.

(Jul 23, 2016 05:09 AM)immaboat Wrote: [\[CITE\]](#) Been trying for the last day to install visual studio, getting errors everytime. think i've tryed every fix that i can think off. Any workarounds for visual studio?

This is binaries, silly :)

Login to my Original Pokemon GO Account?

[img]http://image.prntscr.com/image/7f5f7a05ba2c4de1bdd59cd021001c92.png[/img]
You do the settings and then log in, click the 2 buttons below logins and click start.

(Jul 23, 2016 05:25 AM)end__ Wrote: [\[CITE\]](#) Having trouble logging in with Google accounts. I land on this page when pressing start but what do I do after this?
Where am I suppose to get a code from?

Have you enabled auth? If yes then with your smartphone.

Get your Android phone or tablet.

Find Google Settings in one of these places (depending on your device):

A separate app called Google Settings Google Settings

In your main Settings app, scroll down and touch Google

Scroll down and touch Security > Security code.

You may need to select the account.

You'll see an 8-digit code. Type the code in the box on the screen of the device you're trying to sign into.

Click Continue.

Cecilia - July 23, 2016, 5:30 am

New version account details, will be adding evolve selected or transfer selected or recycle selected on right click soon :)

Mon3aan - July 23, 2016, 5:30 am

It shows me as level 11, even though the account (Google e-mail) i'm using is level 20?

<https://gyazo.com/31002ecae13a351709c09506667a5a53>

I did use a different account on this before that is level 11, but why would it keep showing that same level?

Cecilia - July 23, 2016, 5:32 am

(Jul 23, 2016 05:30 AM)Mon3aan Wrote: [\[CITE\]](#) It shows me as level 11, even though the account (Google e-mail) i'm using is level 20?

Almelonoord - July 23, 2016, 5:37 am

My event log keeps saying "Sorting through 0 pokemon to transfer duplicates..."

I'm new to the pokemon go app. Thanks in advance.

Mon3aan - July 23, 2016, 5:38 am

(Jul 23, 2016 05:32 AM)LaPanthere Wrote: [\[CITE\]](#) Because it's probably still on that account.

Reset the settings under statistics and restart the bot. I have resetted the settings, restarted the bot and it's still using the wrong level. (it just ranked up from 11 to 12...)

Something else to note is, for me the Event log works fine, BUT the Account Details tab is empty.

Xeder - July 23, 2016, 5:41 am

This might be a stupid question, but does this support eggs? I mean, it would be awesome if the bot would put eggs into incubators since it is walking, and I don't see anything about that here.

Manefiq - July 23, 2016, 5:43 am

V4 is awesome, exactly what I was looking for, thank you.

Cecilia - July 23, 2016, 5:46 am

(Jul 23, 2016 05:38 AM)Mon3aan Wrote: [\[CITE\]](#) I have resetted the settings, restarted the bot and it's still using the wrong level. (it just ranked up from 11 to 12...)

Something else to note is, for me the Event log works fine, BUT the Account Details tab is empty. Right click on the list and refresh for pokemon/items/balls.

Hmm, this setting resetting is getting a bit annoying.

Rename the folder and restart the bot.

Same. Please give us a fix ?

Arrakis - July 23, 2016, 6:10 am

Ran for about 7 hours on a fresh account. Got from level 1 to 14. Nothing that impressive caught, plenty of uncommon pokemon but nothing too rare.

For those of you who got it running, I would love to see the settings you guys are using! I've been playing with mine a bit, but am still trying to fine tune.

Devil Dog - July 23, 2016, 6:12 am

Hey, great program. I don't play pokemon or anything, but I just wanted to use this lol.
I've been getting this error.. Do you know what I am doing wrong?

STYLING - July 23, 2016, 6:25 am

My event log is going crazy.... this is the output

Sorting through 0 pokemon to transfer duplicates...
Sorting through 0 pokemon to transfer duplicates...
Sorting through 0 pokemon to transfer duplicates...
Sorting through 0 pokemon to transfer duplicates...

Phrack - July 23, 2016, 6:29 am

Sorting through 0 pokemon to transfer duplicates...
Sorting through 0 pokemon to transfer duplicates...
Sorting through 0 pokemon to transfer duplicates...
Sorting through 0 pokemon to transfer duplicates...

Getting same error :/ idk what im doing wrong rn

??????? ?? - July 23, 2016, 6:36 am

Has anyone worked out how to gauge what the IV stat is in the third release?

Seems to be the thing stopping mine from transferring the low cp pokemon.

MaCc1991 - July 23, 2016, 6:36 am

Every pokemon it comes across "got away" which would suggest i'm soft banned, but it's looting pokestops.

Have the settings on to use Raspberrys on all, yet the bot just seems to suck at catching pokemon. Also is there any way to just make it stand still in a location and catch anything spawning from lures?

Arrakis - July 23, 2016, 6:55 am

(Jul 23, 2016 06:36 AM)TheKnightCollective Wrote: [\[CITE\]](#) Has anyone worked out how to gauge what the IV stat is in the third release?

Seems to be the thing stopping mine from transferring the low cp pokemon.
IV stands for individual value. It's a stat that is calculated from a combination of CP, AP, and HP.

There are calculators online, I've found that a number between 75 and 85 suits my needs best. Then I adjust the CP accordingly. For example right now I've got it set to 150 CP and 85 IV.

Cecilia - July 23, 2016, 7:05 am

Perm bans won't happen for a while (might not even happen - who knows). Softbans only normally happen if you jump location. For example, botting in the US and then logging into your account from the UK would result in a softban.

CheGuevara? - July 23, 2016, 8:34 am

(Jul 23, 2016 08:34 AM)CheGuevara? Wrote: [\[CITE\]](#) Is there nowhere in the settings you can change the speed of your walking?

I'd go for really slow. Sure it will take longer time but feels like it is safer.

I don't use this bot (I use an older one) but if you look in the images on the thread there's a whole setting panel for walking (looks like you can tweak the speed) :)

CheGuevara? - July 23, 2016, 8:38 am

(Jul 23, 2016 08:36 AM)Web Dev Wrote: [\[CITE\]](#) I don't use this bot (I use an older one) but if you look in the images on the thread there's a whole setting panel for walking (looks like you can tweak the speed) :)

Alright, I'll try this one out.

Thanks OP; nice release. The more features the better!
Keep them coming! ?

djcrisp - July 23, 2016, 8:40 am

guys if ur having a problem with ur bot update to the fourth release it seems to work best

Cryptic™ - July 23, 2016, 8:41 am

which one is better. this one or NecronomiconCoding's one?

you dont need to it should give you a bunch of letters in the event box that you input to
<http://www.google.com/device>

MysteryHF - July 23, 2016, 9:06 am

Whats my issue guys???

<https://gyazo.com/18ead75c89749b9f8b20813880f284a4>

Xeder - July 23, 2016, 9:16 am

To all the guys having trouble with "starting execute on login server" errors, try switching versions. I tried running ver3 of the bot but all I got was those messages. So I switched to version 2 and it worked well, then I switched to version 4 and it works as well. It might help you too, if not, there might always be problems with login servers so give it a try in a while. I was using ptc not gmail though.

djcrisp - July 23, 2016, 9:20 am

guys download version 4 not 4.5 it seems to be messing up

Cryptic™ - July 23, 2016, 9:26 am

How do i login with google on the bot

djcrisp - July 23, 2016, 9:37 am

(Jul 23, 2016 09:26 AM)Cryptic™ Wrote: [\[CITE\]](#) How do i login with google on the bot just set all ur settings up you dont need to use ur details press start then there should be a 8 letter in the event log enter them at google.com/devices

CheGuevara? - July 23, 2016, 9:37 am

It keeps saying "Did not Transfer Magikarp (27 cp, 96,67%) (Over Requirement) - "Did not Transfer Magikarp (19 cp, 98,33%) (Over Requirement) -

Sorting through 2 pokemon to transfer duplicates... > and it keeps going on like this as a loop.

What should I change?

JavaDriveBy - July 23, 2016, 9:41 am

Hey, been running for 7 hours...lol...

What settings are you guys using?

Mcsugarface - July 23, 2016, 5:16 pm

im using the default and its just spamming the same thing as the other guys

LilDurk - July 23, 2016, 5:28 pm

Don't say stuff like 'Bot is shit' instead use an older version where it was still working please. As OP said there will be some minor bugs just report them so they can be fixed guys.

COR??X - July 23, 2016, 6:40 pm

how do i change account? logged in with the wrong one

djcrisp - July 23, 2016, 6:45 pm

(Jul 23, 2016 06:40 PM)klungex Wrote: [\[CITE\]](#) how do i change account? logged in with the wrong one

Some say just X out but that never works for me so I just downloaded another and put it in a different folder

Arrakis - July 23, 2016, 6:59 pm

Got to level 21 and have a 1200+ flareon alongside a team of 800-900+ other various pokemon. Not half bad for less than 24 hours.

Aradmey - July 23, 2016, 7:14 pm

I'd be glad if the transfer feature would be explained a bit better, cause I don't seem to understand the way it chooses to transfer a 700+ CP Pokemon while not transferring a ~100 CP Pokemon.

And also, if you may add the ability to auto transfer every Pokemon of the same type and keep only the strongest.

DonS - July 23, 2016, 7:24 pm

Does this work for MAC??????

Cryptic™ - July 23, 2016, 7:25 pm

I was using this earlier today but I found the other bot to be much better.

<https://github.com/NecronomiconCoding/NecroBot>

Everyone get that

It's frequently updated. Multiple updates daily.

Hustla - July 23, 2016, 7:37 pm

Nope. All default settings.

(Jul 23, 2016 05:28 PM)LilDurk Wrote: [\[CITE\]](#) Don't say stuff like 'Bot is shit' instead use an older version where it was still working please. As OP said there will be some minor bugs just report them so they can be fixed guys.

I see that you are a little butthurt from my post where I said the bot was shit.

djcrisp - July 23, 2016, 8:20 pm

(Jul 23, 2016 07:38 PM)SwimmingPool Wrote: [\[CITE\]](#) Nope. All default settings.

I see that you are a little butthurt from my post where I said the bot was shit.

That could be your problem then you should probably make the settings to your liking like tick the Pokemon you wish to evolve then the other 3 you can press all then on the last cp/lv boxes to something like 210\85 and tick all on the use raspberry part

But yea don't call something shit if you can't do any better I don't see you making a effort just because you don't understand something doesn't mean it's shit anyway hope that helps you out not trying to be mean just don't think you're comments are fair

You can leave items to default should be good then

Cecilia - July 23, 2016, 10:03 pm

Fifth Release out.

<https://github.com/Panthere/GoBot/releases/tag/v0.1.4>

For those who are arguing over how shit this bot is, this bot is not a fully released, functioning and active bot.

Do you not read the release notes?

I do not understand your points.

I have not yet actually 'fixed' the PTC or Google login bugs as here the servers are working fine.

Perhaps the going back to ferox's API helps with it.

The api used is now Ferox's old API which he is back at updating.

Necro's bot uses the exact same API. He has about 200 active people making pull requests.

(Jul 23, 2016 12:50 PM)SwimmingPool Wrote: [\[CITE\]](#) This bot is shit. It just removed all the Pokemon from my test account. Lmao.

You lack brains, it seems.

Transfers all dupes in order of descending starting from CP.

Will not transfer if it is not on the transfer list or above either user set CP OR IV.

Rask0 - July 23, 2016, 10:11 pm

What if do not have a google auth token ?

Cecilia - July 23, 2016, 10:12 pm

(Jul 23, 2016 10:11 PM)Moxie710 Wrote: [\[CITE\]](#) What if do not have a google auth token ?

Leave it empty, or the same, press start, you'll get an auth token then.

Restart the bot and enter the token from google/device (or whatever it is).

I DO NOT USE GOOGLE ACCOUNTS AND CANNOT PROVIDE ACCURATE INFORMATION.

(Jul 23, 2016 10:12 AM)immaboat Wrote: [\[CITE\]](#) Keep getting the "sorting trough 0 pokemons to transfer duplicates" message nothing else happens. Any tips?

This means that the server is down or there is no pokemon/pokestops/whatever near the location you set OR there is a serious bug with finding map objects.

It means that the loop is just repeating itself.

(Jul 23, 2016 11:24 AM)Cryptic™ Wrote: [\[CITE\]](#) Been using the bot for the past 1 h 40m and level 7 so far.

That's called a soft ban. You can try evolving something, logging out, and relogging (might fix it). Otherwise, you'll just have to wait 30 minutes - 6 hours.

Thank you, do you have your own bot for your accounts you sell, or do you just use multiple instances of an already existing bot? :)

Spyro The Dragon - July 24, 2016, 3:53 am

what does this do with eggs that are fully grown?

I've noticed that most bots just replace them instead of hatching them, which is annoying cause I have lost out on four 10km eggs.

Cecilia - July 24, 2016, 4:06 am

(Jul 24, 2016 03:53 AM)Spyro The Dragon Wrote: [\[CITE\]](#) what does this do with eggs that are fully grown?

I have not touched eggs, unless the API handles something about them (which I do not think they do).

I assume that they sit in their spot?

Applied - July 24, 2016, 4:07 am

Finally got it working, just had to swap the . to , in the coordinates haha :)

Ty for the bot :D

Wizzay - July 24, 2016, 4:10 am

yes the coordinates use a comma, just figured it out myself! Works perfect, nice UI, also love the option to manually evolve pokemon! Thanks a lot. Btw , will this work with 2 instances? (Just copy map> change settings > run?)

Cecilia - July 24, 2016, 4:12 am

(Jul 24, 2016 03:48 AM)Previously Known As.... Wrote: [\[CITE\]](#) Good work man. I know it's still pre-release but you've been doing a good job with it. Out of curiosity, what does IV stand for (I

haven't search the thread, sorry :()

Here is a log of ~14 hours:

That is amazing.

I never thought the bot would run that long.

IV stands for individual values (as all pokemon in Go have individual stamina, attack and defence). The formula that calculates them is...

$$\text{IndividualAttack} \cdot 2 + \text{IndividualDefense} + \text{IndividualStamina} / (4 \cdot 15) \cdot 100$$
; (the 100 is optional and gets percentage.

Pretty much people love high IV and high CP pokemon.

You might have a 2k CP pokemon with a 30% IV because of their attack being low.

(Jul 24, 2016 04:10 AM)Wizzay Wrote: [\[CITE\]](#) yes the coordinates use a comma, just figured it out myself! Works perfect, nice UI, also love the option to manually evolve pokemon! Thanks a lot. Btw , will this work with 2 instances? (Just copy map> change settings > run?)

Yes, there is no reason why it would not work (unless Pokemon Go limits users).

(Jul 24, 2016 04:07 AM)Applied Wrote: [\[CITE\]](#) Finally got it working, just had to swap the . to , in the coordinates haha :)

Ty for the bot :D

The release notes have stated that for a while :)

No problem, glad you like it.

420 - July 24, 2016, 4:27 am

Why is it always showing distance to target location?

Cecilia - July 24, 2016, 7:03 am

Thread bugged, again...

<https://github.com/Panthere/GoBot/releases/tag/v0.1.5>

New release, please do update when you can, keeping up with the latest is always a good idea. You can easily go back to a previous if it has severe bugs.

(Jul 24, 2016 04:27 AM)Marshall Eriksen Wrote: [\[CITE\]](#) Why is it always showing distance to target location?

It does that to tell you how far away the target is.

The log is normally for debug purposes or for you to simply view if you need to.

Ash™ - July 24, 2016, 7:05 am

Gonna try this Bot out!

Heard good things about it!

Keep up the updates :D <3

I've switched locations simultaneous times, I was at pretty good locations but could you still help me out and share your settings with me?

Also as for your question, you can keep your highest cp by going to "Pokemon Settings" and there should be an entry that says "Keep Top *CP*" no matter what, just change the number to how many ever top pokemon you want to keep. There is no other method of this on the bot currently.

Hunting Rifle - July 24, 2016, 8:30 am

This is what I'm using. This will keep one of every Pokemon, if the bots finds one with a hgiher CP it'll transfer or evolve the weaker one. I think anyway.

Just a small suggestion OP, Could you change then color of the text line when you evolve a Pokemon?

pubmaster - July 24, 2016, 10:34 am

no problems so far with newer version! thanks

Banana - July 24, 2016, 10:55 am

How the fuck do I open this bot after I put in the account details and shit

nvm i downloaded the non compiled one

Everywhere - July 24, 2016, 11:23 am

What does IV means ? what is that % ? thanks

SwimmingPool - July 24, 2016, 11:42 am

(Jul 23, 2016 08:20 PM)djcrisp Wrote: [\[CITE\]](#) That could be your problem then you should probably make the settings to your liking like tick the Pokemon you wish to evolve then the other 3 you can press all then on the last cp/iv boxes to something like 210\85 and tick all on the use raspberry part

But yea don't call something shit if you can't do any better I don't see you making a effort just because you don't understand something doesn't mean it's shit anyway hope that helps you out not trying to be mean just don't think you're comments are fair

You can leave items to default should be good then

A bot shouldn't delete all of my Pokemon without asking me and without me changing any of the settings except for login information.

Copperhorse - July 24, 2016, 11:51 am

Any way to have it use Lucky Egg and hatch eggs?

DaUB3R - July 24, 2016, 12:00 pm

Any updates on when Spoiler [\(Click to View\)](#) is coming?

It would help as this bot keeps transferring Pokemon that I catch which are 1000+ CP

Submit - July 24, 2016, 5:02 pm

Bot is working great, just curious on how I change accounts? For some reason when I select google it shows this key thing, I cant change what account I want to bot.

Amazing tool though!

SUI-3183372 - July 24, 2016, 6:00 pm

I absent mindedly just turned my computer off. Ran for 34 hours averaging 13.5k Xp per hour (I wasn't evolving, just catch/release + Pokestops).

Good job man, it's definitely stable and does its job well.

rowxs - July 24, 2016, 6:48 pm

I want to use this bot but Im afraid... it might trnsfer all my good pokemons.... can someone kindly give me a good settings to evolve.. good pokemons and transfer bad ones..???

I still don't get how the | CP | IV | works

Wubzu - July 24, 2016, 7:26 pm

Can someone add me on skype and help me with a few questions I have getting this bot to work? I cannot PM my skype is Submeaning

Annoited - July 24, 2016, 7:27 pm

Is it just me, or I'm getting less XP per hour now? I'm using the same location that I used two days ago.

Armady1 - July 24, 2016, 7:33 pm

Hey uh.. how do you get the auth token for google accounts? im completely clueless even with googling

DaUB3R - July 24, 2016, 7:47 pm

(Jul 24, 2016 07:33 PM)Minerclawz Wrote: [CITE](#) Hey uh.. how do you get the auth token for google accounts? im completely clueless even with googling

Go on the 'Event log' section and it should give you an auth code

then go on Google.com/device (if it doesn't automatically open already) and insert that auth code.

???????? ?? - July 24, 2016, 7:49 pm

I assume that if i use the no delay option it will be similar to the first versions of pokecolor ?just keep getting stops and pokemon?

Morrakiu - July 24, 2016, 8:09 pm

Just says farming 0 pokestops & then looping postlogin.

Cecilia - July 24, 2016, 10:44 pm

New update coming soon.

Google Directions API integrated.

For people who get looping of PostLogin then it means it did not log in correctly or there were no pokestops in your area.

lamaldrin08 - July 24, 2016, 10:46 pm

Is there anyway to make it move in a certain radius only? Especially when the location has lots of Lure modules activated. It would be a good option IMO.

Cecilia - July 24, 2016, 10:51 pm

(Jul 24, 2016 10:46 PM)lamaldrin08 Wrote: [\[CITE\]](#) Is there anyway to make it move in a certain radius only? Especially when the location has lots of Lure modules activated. It would be a good option IMO.

I will be looking into the API to see if I can actually get pokemon from lure modules instead of just nearby pokestops.

I will be adding support for the Lucky Egg stuff next update, along with the option to use Google Directions (MUCH safer) instead of walking in a straight line.

Next update I also want to integrate google maps to show where you are currently located and keep it updated with the latest data around you :)

For the 'walk' radius I'm quite sure I could integrate a setting to not visit pokestops further than x meters away.

Flaming Hot Cheetos - July 24, 2016, 11:24 pm

How do i switch accounts? when i type different login info the it still logs into the same account

SupremeBot - July 25, 2016, 12:00 am

Says I need to download some version of .NET, is this necessary or is there a way around it?

Zettabit - July 25, 2016, 12:02 am

(Jul 25, 2016 12:00 AM)GoodGuyChucky Wrote: [\[CITE\]](#) Says I need to download some version of .NET, is this necessary or is there a way around it?

It's a requirement. Both the UI and the API use .NET.

ninehell88 - July 25, 2016, 2:29 am

Hi, i am new to this forum. i would like to ask whats good coordinate setup around central park new york? my statistic only gives 5k per h. i want new settings around new york with constant 10-20k per hours..

My Settings:

Latitude: 40.765261

Longitude: -73.972356

Altitude: 147

Walk Speed : 15 km/h

Exp per hrs : 5k / h

Pokemon per hrs : 16/h

And whenever i change coordinate. the log keep saying distance to target location is 40m and changing speed to 10 km per hrs..what does it mean? Thanks

protege - July 25, 2016, 4:03 am

so turns out you cant put in any pokemon in a gym ;/

DaUB3R - July 25, 2016, 5:08 am

(Jul 25, 2016 02:29 AM)ninehell88 Wrote: [\[CITE\]](#) And whenever i change coordinate. the log keep saying distance to target location is 40m and changing speed to 10 km per hrs..what does it mean?

Thanks

The bot is slowing down so it doesn't accidentally walk past the pokemon/pokestop.

Phrack - July 25, 2016, 5:26 am

Why are other bots making more XP then this bot ? I love this bot but i make like 20k a hour with good location. Where other people make 80k XP hour.

just really curious and i saw that necrobot walks in default 50km hour thats really fast also

Hellsing - July 25, 2016, 5:29 am

You can change the speed of the bot in settings but when the bot moves too fast it doesn't catch eggs.

(Jul 25, 2016 05:26 AM)Phrack Wrote: [\[CITE\]](#) Why are other bots making more XP then this bot ? I love this bot but i make like 20k a hour with good location. Where other people make 80k XP hour.

You can change the speed of the bot in the settings, its set to 20 default, because eggs don't hatch above around 20km/h or so. It is also safer to just walk like you walk normally, lesser chance of ban. Also, even with that high speed i HIGHLY doubt you can get anywhere near 80k/h unless you use lucky egg and mass evolve, just catching pokemon and using stops at such high speeds would probably cause soft ban after a while.

ninehell88 - July 25, 2016, 6:06 am

(Jul 25, 2016 05:08 AM)DaUB3R Wrote: [\[CITE\]](#) The bot is slowing down so it doesn't accidentally walk past the pokemon/pokestop.
i see! thats good. thanks!

Unixroot™ - July 25, 2016, 6:48 am

The latest update is very slow as compared to the older versions

Cecilia - July 25, 2016, 7:02 am

(Jul 25, 2016 06:48 AM)Unixroot™ Wrote: [\[CITE\]](#) The latest update is very slow as compared to the older versions

Yes, use the 'No Delay' mode.

Delay was not on in older releases (as it was not await).

Released the Seventh Pre-Release.

Added Google Maps Mini-Map thingy.

Added Directions from Google (mode is default on).

Added colors on the log.

Not sure how it will go, resource usage seemed low when I was using it.

<https://github.com/Panthere/GoBot/releases/tag/v0.1.6>

oxsi91 - July 25, 2016, 7:34 am

why i got this error

but i cant post the img because i dont have

Unixroot™ - July 25, 2016, 7:34 am

Also the 4 eggs with 10 km hatched very shitty pokemon, maybe because it roams very nearby?

Japanese Congress - July 25, 2016, 7:41 am

Fantastic bot.

I know it says settings cannot be changed, but is it possible to logout of my account by any chance?

Cecilia - July 25, 2016, 7:45 am

(Jul 25, 2016 07:41 AM)Japanese Congress Wrote: [\[CITE\]](#) Fantastic bot.

Ptc server maintenance

Fuckadoodledoo - July 25, 2016, 9:01 am

Hey, any plans to add the ability to incubate an egg? Or a checkbox to automatically incubate eggs?

Thanks :)

DaUB3R - July 25, 2016, 9:03 am

(Jul 25, 2016 07:34 AM)Unixroot™ Wrote: [\[CITE\]](#) Also the 4 eggs with 10 km hatched very shitty pokemon, maybe because it roams very nearly?

Nah that's just your luck

(Jul 25, 2016 08:34 AM)iNk. Wrote: [\[CITE\]](#) I love your bot it's awesome and easy to configure no doubt.

Love the GUI as well.

I set my settings to transfer selected Pokemon below 700CP and it doesn't seem to transfer all of them just some of them.

Yeah, a big issue.

However the bot makes up for it by allowing you to do it manually.

- Select the pokemon you want to transfer (highlight them using control + click the pokemon)
- Then right click and select transfer selected.

Asag - July 25, 2016, 9:23 am

I honestly can say i vouch for this tool. I got it last night and let it run for at least what, 10-12 hours and it is still going. The GUI is very user friendly, yes there are bugs that i have ran into but that was mentioned in the thread. Anyways thanks OP for this, its an amazing tool and i hope you will be adding more to it.

ninehell88 - July 25, 2016, 9:30 am

i tried new version, so far so good. is there anyone here using no delay or teleport? setting? i jst want to figure out fastest way to get exp per hours

heretohack - July 25, 2016, 12:06 pm

It was working but now all the pokemon are "running away". Is it a bug and can I fix it?

djcrisp - July 25, 2016, 12:11 pm

hey got a idea may be a crazy one but maybe 3 tick boxes on each pokemon to choose if it should use a pokeball greatball or master ball and then maybe add a threshold where it chooses a ball depending on CP just a idea not sure if its possible and a option to just stand in one spot if thats possible but would need to find a fix for lure modules and stuff first

(Jul 25, 2016 12:06 PM)heretohack Wrote: [\[CITE\]](#) It was working but now all the pokemon are "running away". Is it a bug and can I fix it?you are probably soft banned wait about 2 hours and you should be good

Applied - July 25, 2016, 12:15 pm

Are you sure there are actually pokestops around?

I'm fixing 'teleport' in this version to be more like NecroBot's (just waiting a few ms before immediately changing to the pokemon's location).

WOW I just found the reason, walk speed is actually forced to 20, my bad!

(I am a bad coder, sorry :())

Yeah, now I am getting a solid 50k/h anywhere ;)

(Jul 25, 2016 06:49 PM)thiird Wrote: [\[CITE\]](#) hmm its still the same, i think its slower now, im in santa monica pier

Looks like every time I run it, I've gotten a soft ban

lamaldrin08 - July 25, 2016, 7:13 pm

Very nice update with the map and directions. Now all is needed

- option to save settings

- faster xp gain algorithm

Very good job @LaPanthere

Credibility - July 25, 2016, 7:14 pm

Downloading this now! I appreciate the effort you've obviously put into this :) I look forward to using it as my first PoGo Botting experience.

Cecilia - July 25, 2016, 7:17 pm

(Jul 25, 2016 07:13 PM)lamaldrin08 Wrote: [\[CITE\]](#) Very nice update with the map and directions. Now all is needed

Very good job @LaPanthere

1. Already done (Except checkboxes and walking speed).
2. Already done in this mini-update that I will be pushing to pre-release in about 5 minutes.

<https://github.com/Panthere/GoBot/releases/tag/v0.1.7>

Latest release.

Use the settings listed there for max XP.

ninehell88 - July 25, 2016, 7:31 pm

sir, so what setting did u used to get a solid exp 50k/h? teleport or no delay. i saw u post new eight release. is it safe to use without get banned? i've been using ur sixth release since seventh release always got all pokemon running away.. and when i changed back to sixth release..everything went smoothly.

Cecilia - July 25, 2016, 7:34 pm

(Jul 25, 2016 07:31 PM)ninehell88 Wrote: [\[CITE\]](#) sir, so what setting did u used to get a solid exp 50k/h? teleport or no delay. i saw u post new eight release. is it safe to use without get banned? i've been using ur sixth release since seventh release always got all pokemon running away.. and when i changed back to sixth release..everything went smoothly.

You can use the release and not get banned, teleporting will at some point lead to a softban so I'm just warning you.

You'll get a solid 50k/h where there are about 150-200 pokestops.

Read the release notes and set it up like that, I recommend also changing the walking speed to 50 (any higher might end up in a loop and get you softbanned).

bigburr - July 25, 2016, 7:50 pm

Thanks LaPanthere, now getting my 50k/hr :) Thanks a bunch!

Physicist - July 25, 2016, 7:51 pm

How do you reset the google token so I can make another bot for another account.

Cecilia - July 25, 2016, 7:57 pm

(Jul 25, 2016 07:51 PM)xphysics Wrote: [\[CITE\]](#) How do you reset the google token so I can make another bot for another account.

Simply leaving it blank (on bot settings) should make it spew out a new auth token.

Terasul - July 25, 2016, 8:01 pm

Hi thanks for the bot, it works very well with Teleport but I have an issue when I use Google Direction only.

Exception (Post Login) : System.InvalidOperationException : . The sequence contains no elements to System.Linq.Enumerable.First [TSource] (source 1Enumerable) to Go8ot.Utils.Navigation < DirectionalWalking > d_7.MoveNext() in causers \ DEDI -AOL - 07 \ Documents \

My pc isn't in english then I tried my best to translate the error.
Thanks for your time :)

Cecilia - July 25, 2016, 8:06 pm

(Jul 25, 2016 08:06 PM)LaPanthere Wrote: [\[CITE\]](#) Update to update 8. This should have been fixed. Give me a line number if not.

I tried this on other computers and got this issue. how do i update it to update 8? i already use Eight Release GoBot

Credibility - July 25, 2016, 9:48 pm

LOVING how easy this was to use. I'm a little confused at what the "No Delays" and "Google Directions" part of it do, and how to optimize my XP/H, but nonetheless I'll be leaving it running for 8 hours or more at a time at 17km/h speed so it seems somewhat norm in Santa Monica. Thanks again :)

ninehell88 - July 25, 2016, 10:01 pm

Heres log problem i got when trying GoBot on my other computers. But it went work smoothly when i use it on my first pc. Any solution? Maybe because i already logged my google account on my first pc? or simply i miss important file? i notice after i log on other computers, the maps showing me in nowhere (just ash icon on white maps) i am sure i did entered right coordinates..and also when i reopened GoBot Release 8. it does not save my previous coordinates correctly (i entered 40.764861 and -73.972741 then it save as 40764861 and -73972741 without comma)

I'm not here to help people who don't read the release notes.
I'm aware of the 'berry' issue, so calm down.

spankyou - July 25, 2016, 10:43 pm

Thanks for your continuing effort to make this the best bot out there :D

I remembered reading about radius. I think this feature is perfect if you're going to a nest and looking to farm a specific pokemon in that area. You don't really want to leave that area because the pokemon won't spawn anywhere else except for within that radius. Looking forward to what you have found!

SIM-2223238 - July 25, 2016, 10:44 pm

the guy that recorded the video sounds like hes getting anal penetrated but hes trying to hide it.

lamaldrin08 - July 25, 2016, 11:04 pm

How about farm in a certain area with radius? Because I know a location with a 24/7 lure module on in the area.

Grinch - July 25, 2016, 11:17 pm

Why does it keep getting pokemon away like it wont catch any for me :(

Hi, i was sure the system culture were correct but i tried to reworked it by changing System Culture in Windows 7 and now GoBot went smoothly . Here's how i fix coordinate problem, in case someone also got this problem:

1. Open Regional and Language Options
2. Under "Format" pick another regional setting (eg: English (United States)).
3. Press "Apply"
4. Under "Format" pick your original desired locale (ie: Finnish)).
5. Press OK.

source: [copsmodels.com/gpcommapnt.htm](http://copsmodels.com/gpcommmapnt.htm)

GoBot reworked again after i click stop then start again.

Cecilia - July 26, 2016, 3:07 am

(Jul 26, 2016 02:05 AM)ninehell88 Wrote: [\[CITE\]](#) GoBot went smoothly then it went error after awhile. I think i will use GoBot Release 6 before sleep so i dont have to worry about errors from GoBot release 8

GoBot reworked again after i click stop then start again.
You should be well aware of pokemon server instability.
None of those errors are caused by my bot, instead by the servers.

ninehell88 - July 26, 2016, 3:24 am

How do i change google account? i tried to open hidden file appdata/local/pan_soft. Everytime i delete the folder and i reopen GoBot. it just reappear again and still retain same previous google account. I also tried to reset settings and leave Google token blank but also not working. any ideas how to change it or its a permanent account now?

I found new solution. just simply delete the GoBot Folder and redownload GoBot. It will have fresh start

Sharjah - July 26, 2016, 3:27 am

Thanks Panther. Been using NecreoBot for quite some time but looking to make a temporary switch to be more familiar with all kinds of bots. Will see how well this bot is

12thru15 - July 26, 2016, 3:39 am

anyone experiencing bot not capturing any pokemon? :\

my cords are
lat:34.020947
long:-118.493935
alt:32

santa monica

using the latest version.

tia.

Cecilia - July 26, 2016, 4:40 am

For those who are experiencing the 0 pokestops/whatever:

It is MOST likely a server issue, there is nothing I can do to resolve it.

It resolves after time.

Dark Genesis - July 26, 2016, 4:43 am

(Jul 26, 2016 03:33 AM)Previously Known As.... Wrote: [\[CITE\]](#) Is there a known issue regarding the following:

I've checked and rechecked coords, I'm definitely on the Santa Monica pier near a couple dozen stops. Should I keep messing around with it, or is there something going on? It just keeps looping through the same thing in the picture. I went afk earlier and actually racked up an 800mb log file from this.

I'm having the same problem. I've noticed that shutting the bot off and turning it back on after about 5-10 minutes helps a little, but then goes back to the issue after about 5 pokestops are reached.

I'm assuming it's a server issue.

djcrisp - July 26, 2016, 6:31 am

GoBot reworked again after i click stop then start again.

I'm got this last night aswell since the new update I'll leave it running now to see if I get it again I'm running it on 2 accounts mine and my gfs it seemed to have happened around the same time so I'm assuming maybe it's the server but I'll post back if it happens again usually you just have to press stop and start and it will work again so not a huge issue

Anima - July 26, 2016, 6:40 am

I am not getting anything from pokestops currently and every pokemon it is not capturing a single

pokemon, must have wasted about 30+ pokeballs because of it so far :C

Unixroot™ - July 26, 2016, 6:43 am

(Jul 26, 2016 06:40 AM)TwistedTech Wrote: [\[CITE\]](#) I am not getting anything from pokestops currently and every pokemon it is not capturing a single pokemon, must have wasted about 30+ pokeballs because of it so far :C
You might have gotten a soft ban

djcrisp - July 26, 2016, 6:51 am

Just got that error and they both crashed but servers ain't down I logged in to see

05317832892 - July 26, 2016, 6:54 am

Video tutorial is good, will definitely help people set this up. Much easier than digging through xml configs at least.

#Thunder - July 26, 2016, 7:16 am

(Jul 26, 2016 06:43 AM)Unixroot™ Wrote: [\[CITE\]](#) You might have gotten a soft ban
That is definitely a soft ban.

Anima - July 26, 2016, 7:21 am

Just wait the maximum of three hours and you'll be fine.

Malitia - July 26, 2016, 9:17 am

How do i get the Auth token when doing the google way?

Dark Genesis - July 26, 2016, 9:26 am

(Jul 26, 2016 09:17 AM)?Emma Wrote: [\[CITE\]](#) How do i get the Auth token when doing the google way?

Go to Google.com/device

If you're logged in using your google account, you should see a box that says "Enter the code displayed on your device"

Now go on your bot, set it up with the options you want to select. Then for "Bot Settings" select "Google" and the text box doesn't matter. Just hit "Start"

Once you hit start, go to the Event Log. It will then have a code for you to type into google.com/device

Type that code in on your browser and it should say the device is now authorized.

Then I just restarted the bot and it worked. Once you select "Google" under bot settings next time it just auto-populates with your information and you're good to go.

djcrisp - July 26, 2016, 9:27 am

(Jul 26, 2016 09:17 AM)?Emma Wrote: [\[CITE\]](#) How do i get the Auth token when doing the google way?its in the event log then you go to www.google.com/device sign into ur pokemon go google account then enter it there just leave it blank in the program it auto fills

n go google account then enter it there just leave it blank in the program it auto fills

Gatt - July 26, 2016, 9:33 am

any good settings you guys use? i only get 6-7XP/h

Batidas - July 26, 2016, 9:42 am

Works fine and was extremely easy :) thanks!!!

Demize - July 26, 2016, 9:51 am

I was getting a non authorized error early so I just left I running and went to work could that be from the server being down?

12thru15 - July 26, 2016, 10:14 am

hi guys mind to share your walking speed? which is the most effective?
and if unticking google directions will be the grinding process be faster?

thanks in adv.

Expels - July 26, 2016, 10:33 am

It's still working but I'm getting this weird error as it works.

strokin3 - July 26, 2016, 10:46 am

I'm only farming like 10k xp/hr max with this bot. Is this normal?

12thru15 - July 26, 2016, 10:55 am

(Jul 26, 2016 10:46 AM)strokin3 Wrote: [\[CITE\]](#) I'm only farming like 10k xp/hr max with this bot. Is this normal?

hey m8 can u share your settings? ;)

Expels - July 26, 2016, 10:57 am

(Jul 26, 2016 10:46 AM)strokin3 Wrote: [\[CITE\]](#) I'm only farming like 10k xp/hr max with this bot. Is this normal?

I'm only farming 3,500 xp/hr max.

djcrisp - July 26, 2016, 11:01 am

(Jul 26, 2016 10:57 AM)Expels Wrote: [\[CITE\]](#) I'm only farming 3,500 xp/hr max.

Location is key and if there's not minimum of 100 poke stops around you won't get good xp per hour put it in Central Park or something turn teleport turn off google maps turn on no delay and remember last coord and you should be good

im getting 3k per hour with just poke stops enabled 10k on my friends account getting him pokeballs and on my account while just farming for charmanders getting 13k and 30k on gfs account actually leveling so it depends on your location and settings

Dark Genesis - July 26, 2016, 11:10 am

(Jul 26, 2016 10:33 AM)Expels Wrote: [\[CITE\]](#) It's still working but I'm getting this weird error as it works.

This has happened to me a few times, I just shut it down, wait a minute, then start it back up.

(Jul 26, 2016 10:46 AM)strokin3 Wrote: [\[CITE\]](#) I'm only farming like 10k xp/hr max with this bot. Is this normal?

When farming using near-legit settings, yes this is normal.

I'm farming at Santa Monica Pier right now getting about 35k an hour.

Walk Settings:

-Latitude 34.007417

-Longitude -118.499833

-Altitude 105

-Walk speed 100km/h

Checked:

No Delays. All the rest have been left unchecked.

Pokemon settings:

-Evolve: None

-Catch: All (For numbers below it I have CP 10 and IV 25... not sure if this even matters really)

-Transfer: I have it set to transfer everything under CP 800 and IV 80

Berries currently not working from what I gather

Item settings:

-Default item settings.

These may not be the best settings, but it should hopefully help someone out.

SavageAF - July 26, 2016, 12:49 pm

Could someone explain all the stuff under 'pokemon settings' for me, I'm confused to as why only 1 out of my 8 pokemon hasn't been transferred

pubmaster - July 26, 2016, 1:20 pm

for some reason only 3k xp/per hour :/

Anima - July 26, 2016, 1:27 pm

Something that would be awesome to add to this, is that if you could set a path of direction that you want your character to travel and loop it. For example if you live in an area where there are few poke stops, you can make it loop round to keep getting those specific pokestops

pubmaster - July 26, 2016, 1:51 pm

cant get anything to work for me lol.... still 3k xp p/h

Aidan123 - July 26, 2016, 4:05 pm

this is an amazing bot but when I use google its not actually my account it is some level 1 account, any help?

djcrisp - July 26, 2016, 4:26 pm

(Jul 26, 2016 04:05 PM)Aidan123 Wrote: [\[CITE\]](#) this is an amazing bot but when I use google its not actually my account it is some level 1 account, any help?lol go to google.com and log into the details u use for pokemon go then you should be dandy

jimmyleet - July 26, 2016, 5:20 pm

Good bot for transferring all my pokemon that are below a certain IV but actually using the bot doesn't seem to work keeps walking to pokestops and getting 0 items etc but good work so far.

Credibility - July 26, 2016, 5:21 pm

I'm trying to find a way to make this bot just sit fucking still and I can't figure it out.

Im running three accnts with this at the same time on the same computer. What i do is open the rar/zip file of GoBot, make a new folder on my desktop, and drag all the components from the rar/zip file to the folder i just created and boom. U should be able to start fresh. Did this with 3 accnts and each time i dragged the files into the different folders it started off as a fresh start

Credibility - July 26, 2016, 8:29 pm

do that or you can spoof location to where you want to be and if you spin and exit the poke stop 40 times the soft ban gets lifted

jimmyleet - July 26, 2016, 11:03 pm

After playing around the interface is solid, still running into issues with it not catching Pokemon at level 30+ I have noticed it is only using Pokeballs and not Great/Ultra etc depending on the % of catch.

Is this something we can fix so if the Pokemon is a hard to catch use a higher ball? I have noticed the berry option and I know its a work in progress.

Instagram - July 26, 2016, 11:05 pm

I have tried this and it works fine but there are some better bots out there in my opinion! Thanks for the share!

Brama - July 26, 2016, 11:53 pm

(Jul 22, 2016 02:54 AM)LaPanthere Wrote: [\[CITE\]](#) Hey,

Please make sure to actually read, this is not a proper release. Expect serious

LaPanthere is there a way to use your bot to just simply check the IV of your pokemon without it transferring or evolving any of them?

If not could you perhaps make a IV Calculator Bot. It would be so much better then manually using the calculators on the websites

Flaming Hot Cheetos - July 27, 2016, 12:50 am

Still cant change accounts, I've tried deleting, redownloading, even running the bot while still in .zip and nothing will work

The number it is set to is how many it will keep.

Say you set it to 100 pokeballs - As soon as you go over 100 pokeballs it will start discarding them until you're at 100.

lamaldrin08 - July 27, 2016, 8:29 am

Suggestions on additional features:

Total # of Pokemons and Items.

Interactive map or map shows Pokestops or Gyms.

Later on, maybe you can also add auto atk gym, for lvling up gyms.

Rare Air - July 27, 2016, 11:12 am

So I managed to level up to level 10 using this bot yesterday, turned it back on today and it fails to catch every single pokemon that it encounters? Any idea why? I've changed my walk speeds from 45 km/h all the way down to 10 km/h and nothing has changed. I've also change my coordinates around to different spots in my town and still encounter the same problem. Bot seems to be running fine otherwise, just can't catch any pokemon.

Dark Genesis - July 27, 2016, 11:36 am

Probably soft banned. Just let the bot run for a few minutes and you should be good to go. Or you could log out for a while and try again later.

Rare Air - July 27, 2016, 11:44 am

(Jul 27, 2016 11:36 AM)Dark Genes's Wrote: [\[CITE\]](#) Probably soft banned. Just let the bot run for a few minutes and you should be good to go. Or you could log out for a while and try again later.
Was letting the bot run for half an hour and it failed to catch every pokemon encountered. I logged in on my phone and seemed to be able to do everything that you're normally able to do.

OG ? - July 27, 2016, 11:45 am

yes u right

spankyou - July 27, 2016, 12:44 pm

(Jul 26, 2016 11:53 PM)Brama Wrote: [\[CITE\]](#) LaPanthere is there a way to use your bot to just simply check the IV of your pokemon without it transferring or evolving any of them?

If not could you perhaps make a IV Calculator Bot. It would be so much better then manually using the calculators on the websites

His bot already has an interface for that. It also lets you sort Pokemon by IVs, ATT, def, stamina, etc, and not evolve or transfer any until you right click on the highlighted Pokemon and choose to transfer or evolve them.

If you don't want to evolve or transfer just unchecked the boxes for those end unchecked pokestops and catch Pokemon when you log in.

Cecilia - July 27, 2016, 6:39 pm

I've sadly been very busy the last few days.
<https://github.com/Panthere/GoBot/releases/tag/v0.1.8>

There's the 9th pre-release.

(Jul 27, 2016 01:58 AM)ninehell88 Wrote: [\[CITE\]](#) Sir Panthere, can you add current Total Pokemon and Item on next updt? it make us easier to manage pokemon..for example 120/250 pokemon and 150/350 items

I have no idea how you would get the max of each, are they static?

Kirizame - July 27, 2016, 6:48 pm

Just getting
Looping PostLogin Agan - Idle:False
Any fixes? I've done everything exactly how its set up in the video.

Cecilia - July 27, 2016, 6:49 pm

well, i just want to count how many empty slot i still have to fill it with weedle, rattata, pidgey and caterpie so it makes me easier to preparing them for evolve. would be convenient to also know how many pidgey, rattata, caterpie and weedle we have before making mass evolution hehe. For example i have 150 pokemon (150/250) that means i still have 100 free slot for pokemon and would like to know how many duplicates of pokemon i had like i have 5 pidgey now. So it can be easier to determine when i can do mass evolve at once.

'OverSight - July 27, 2016, 8:53 pm

Looks good man. Wanted to try it out but it dosent seem to give me the auth code?

What should I do? lol

it works. thanks to djcrisp.

Here's how to make GoBot Release 9 to work while we awaiting for Sir Panther to fix token issue.

1. Backup GoBot folder that works for u and has saved token in it
2. Delete GoBot application (396 KB) and GoBot.pdb (256 KB) from your previous GoBot folder which has saved token in it.
3. Copy then paste GoBot application (396 KB) and GoBot.pdb (256 KB) from your New GoBot folder to Old GoBot folder.
4. Now you can enjoy GoBot release 9 with your old token.

Here's my log. I got Rhydon and pikachu from Nearby Pokemon feature:

```
[13:13:06] Catching 2 nearby Pokemon
[13:13:08] We caught a Rhydon with CP 1171 (73.33% perfection) using a ItemUltraBall
[13:13:09] Sorting through 4 pokemon to transfer duplicates...
[13:13:09] Did not Transfer Slowpoke (446 cp, 91.67%) (Over Requirement)
[13:13:09] Did not Transfer Pinsir (660 cp, 93.33%) (Over Requirement)
[13:13:09] Did not Transfer Zubat (10 cp, 91.67%) (Over Requirement)
[13:13:09] Did not Transfer Magikarp (50 cp, 96.67%) (Over Requirement)
[13:13:11] We caught a Pikachu with CP 449 (36.67% perfection) using a ItemPokeBall
[13:13:12] Sorting through 5 pokemon to transfer duplicates...
[13:13:12] Did not Transfer Slowpoke (446 cp, 91.67%) (Over Requirement)

I guess the game has updated their secret.yea maybe i dunno im having a issue that it goes too far haha wanted to farm chrmanders but its gone like 10 mile away

<https://gyazo.com/3a7a205e75c3830fe3b389ec9d8848cf>

lamaldrin08 - July 28, 2016, 12:31 am

Also, maybe you can put up error boxes for the exception errors.

tjapp - July 28, 2016, 12:38 am

Same can't get authtoken letters, tried to check after security code on my phone, but thats 8 numbers, and i cant put in numbers as code on the device manager at google.

also get Unhandled exception all the time with the new version signing with PT acc. it still runs, but it pops up all the time and u can press continue.

Value cannot be null
Parameter name: Value.

and then a long error code, but it names my computer(that has same name as my pokemon accounts) so i wont post it here.

Secret Agent Minion - July 28, 2016, 12:43 am

I'm getting the exact something, however if I use PokeFast v1.0 it gives me the code which is strange.

SavageAF - July 28, 2016, 3:17 am

How do I get my google auth token, I've tried looking it up but I have no idea

Lord_Jesus - July 28, 2016, 3:22 am

Really good bot, however I cant seem to find my auth token, also, I cant parse the location....

My current settings are:

gyazo.com/462d94b3afcd8073497b679412f399fa

My event logger:

gyazo.com/462d94b3afcd8073497b679412f399fa

PacketBuster - July 28, 2016, 3:47 am

First, great work with the bot but it doesnt give me an auth code..

Cecilia - July 28, 2016, 3:48 am

PTC is now DOWN

Quote:With the exciting launch of Pokémon GO, there's an overwhelming demand for access to Pokémon Trainer Club accounts, including new accounts, profile changes, and password/username retrieval. Our team is hard at work improving support for these features. Until the work is complete, for a brief time, we'll be limiting the amount of access to these features. Please refresh your browser and try again.

Google Auth is also DOWN for those who want to generate codes.

Do not spam the thread with 'NOT WORKING!!!'.

We can ONLY wait for them to resolve the issues, OK?

PacketBuster - July 28, 2016, 4:08 am

Really? What exactly does that mean? How long does this usually last?

gtasa720 - July 28, 2016, 10:48 am

is it possible to revert back to Google Auth login?

Because i'm afraid to give my username and password.

justsee hacks - July 28, 2016, 11:14 am

this new update work nice. but i always get error from framework. I need click Continue always. any help ?

Glorify - July 28, 2016, 12:12 pm

<http://prntscr.com/byr098>

no matter if i use PTC or google email this keeps showing up

i use commas instead of dots for the coordinates

can someone help me out please?

xEdgaar - July 28, 2016, 1:01 pm

Used the bot for 1 and a half hours without a problem but then it crashed and when I tried to reload I kept getting the same error : Looping PostLogin Again - Idle: False

It's not catching any pokemons nor visiting pokestops, not sure how I'm supposed to solve this

Scrubkin2017 - July 28, 2016, 2:28 pm

lots of errors with the latest version, numerous framework errors. lots of looping post login errors.

spankyou - July 28, 2016, 2:35 pm

(Jul 28, 2016 07:38 AM)LaPanthere Wrote: [\[CITE\]](#) Separate tool in development, will be out very soon :)

Yes, I have tested it across places very large that would result in softbans, it seems to have managed it fine.

If this is what I think it is, then my shriek like a little girl in my office was worth it.

So if this bot snipes Pokemon at any coordinate, and also search for that specific Pokemon at a radius just in case the coordinates are wrong, I won't have to waste 20+ ultraballs and stuff doing it manually, yeeeeeeeeeeeeehhhh

justsee hacks - July 28, 2016, 3:29 pm

"keep top" what is the function?

I would love an option to never transfer when the pokemon has a higher cp than the current in pokedex. I have for all Pokemon are transferred and sometimes happens to transfer a Pokemon with higher CP than at present.

Dearrrxx - July 28, 2016, 4:01 pm

For everyone that is having problems with getting a Device code OR catching pokémons:

read the log in GoBot Code [00:22:31] Looping PostLogin Again - Idle: False
[00:22:31] [b]If this is happening a lot it means the Pokemon servers are unstable, do not spam issues on git with this! We can't fix it![/b]

So there is/might be a problem with the Pokémon Go servers. Also when you try to start the bot for the first time and you won't get a Device Code to use it's because the servers of Google Auth doesn't work aswell.

Also a good thing to take a look is @ the github from where you can download the bot, under the tab Issues there you will see all known issues!

Kind regards

NohTow - July 28, 2016, 4:23 pm

Why does it say in the title that's it fixed when the link make us go to the old version ?

St?ven - July 28, 2016, 4:23 pm

Did I break everything??

Have anyone checked the source so it won't save this to some kind of server for fraudulent use?

First of all I don't understand why you would use a email you use for personal things. why not making a Gmail that is just for in this case pokemon go botting. so IF they would get into your account they won't find your Brazzers account ??

dribbling - July 28, 2016, 5:01 pm

Loving this bot, a good feature to add would be keep 1 of each pokemon and transfer the rest(if you catch one and if its higher cp and iv, transfer the lower one).

KappaPride - July 28, 2016, 5:59 pm

Is it currently working?

Also Good job with the bot.

Why do I get this issue?

gyazo.com/9e6ba3db082c34e836035921ec086e02

someone please help.

Cecilia - July 28, 2016, 6:57 pm

Guys, the invalid response issue is caused by the pokemon go servers.

You can't spam the servers with requests, so if it happens just wait a bit before retrying to load pokemon/items/etc

Small update coming shortly.

Demonstrate - July 28, 2016, 6:58 pm

(Jul 28, 2016 06:57 PM)LaPanthere Wrote: [\[CITE\]](#) Guys, the invalid response issue is caused by the pokemon go servers.

SIM-3223126 - July 28, 2016, 8:13 pm

Running smoothly yet or still shaky? Love GoBot!

Jimmie - July 28, 2016, 8:20 pm

Does this bot have soft unban?

spankyou - July 28, 2016, 8:22 pm

from your changelog Panther:

Updated API (still getting invalid responses, please if you get them they are caused by rate limiting by Pokemon Go servers, don't spam Git)

What does "Git" means lol?

Cecilia - July 28, 2016, 8:23 pm

(Jul 28, 2016 08:20 PM)jimmie Wrote: [\[CITE\]](#) Does this bot have soft unban?
No.

The API limits the requests per second made.
So if you're constantly getting errors, please just retry in a bit.
Ferox will update his API to handle this, until then there is not a fix.
As I have always said, this is based on an API, this is not an API itself.

(Jul 28, 2016 08:22 PM)spankyou Wrote: [\[CITE\]](#) from your changelog Panther:

Hmm, are you sure you're on the new 10th release?

You shouldn't get any of those errors if you're on the newer update I pushed yesterday.

It should instead say "Invalid packet was received"

You can probably use "No Delay"
and don't put your catch radius that high, max 100 (it's limited to 75 blocks search radius anyway)
If you don't select anything on Catch Selected then it will transfer them all after catching :) (right click to uncheck them fast)

gtasa720 - July 29, 2016, 11:03 pm

Is there any way to bring back old Google Login(Without username and password).

Because i'm afraid to use my Google Username and Password.

Cecilia - July 29, 2016, 11:08 pm

(Jul 29, 2016 11:03 PM)gtasa720 Wrote: [\[CITE\]](#) Is there any way to bring back old Google

Login(Without username and password).

Because i'm afraid to use my Google Username and Password.

No, Niantic patched the ability to generate auth tokens for you to use.

You must use your google email and password.

If you are afraid I can recommend three things:

1. Stop using google logins
2. Use 2FA and generate an App Password
3. Search the source, find nothing that steals your logins and simply resume using your email and password.

Unixroot™ - July 29, 2016, 11:13 pm

(Jul 29, 2016 11:24 PM)Unixroot™ Wrote: ([CITE](#)) I just wanted to change name so that I can use In my office

Uh, haha, ok.

Just download the binaries, copy the dll files into the debug folder, should work alright although protos might be a problem.

Wait for the release I am pushing soon. Just doing a runtime test atm.

Sharjah - July 29, 2016, 11:29 pm

Does this bot find coords to rares?

Unixroot™ - July 29, 2016, 11:35 pm

Still same errors, can't compile :(

Cecilia - July 29, 2016, 11:52 pm

(Jul 29, 2016 11:29 PM)B ronx Wrote: ([CITE](#)) Does this bot find coords to rares?

No it does not have inbuilt sniping from third party sites.

(Jul 29, 2016 11:35 PM)Unixroot™ Wrote: [\[CITE\]](#) Still same errors, can't compile :(
Re-add them as references from the 11th release. Should be fine. It won't run the same though,
you're better off simply downloading a tool to change window titles.

<https://github.com/Panthere/GoBot/releases/tag/v0.1.10>

Added back Keep Top CP Pokemon

Added feature that will keep the pokemon even if below transfer requirements if it is the highest
pokemon of it's kind. (Use override to override)

Updated Protos for binaries (evolve/lucky eggs should work fine)

Fixed a few small bugs

Fixed invalid response on walking event

Do I need to redownload?

cyrinity - July 30, 2016, 1:18 am

i get the looping postlogin thing even though i'm sure the server isn't unstable or down right now.
any idea for a fix? everything seems to work normally when i hit 'stop' and it goes to return to the start location

edit: changed lat/long seems to be working fine now

SIM-1091100 - July 30, 2016, 1:19 am

It just does this over and over

Lufasu - July 30, 2016, 1:21 am

This is amazing looking bot , any review's guys ?

Cecilia - July 30, 2016, 1:31 am

(Jul 30, 2016 01:19 AM)HoboSama Wrote: [\[CITE\]](#) It just does this over and over
Yep, still to figure it out, I found that it was to do with the settings of speed.
I have kept mine to 40 and it's been fine ever since.

(Jul 30, 2016 01:09 AM)AliceAllen Wrote: [\[CITE\]](#) Do I need to redownload?
Yes, check github releases.

Acel - July 30, 2016, 1:38 am

How much xp are you supposed to be getting an hour? most people say like 50k/hr Im only getting 4k

AliceAllen - July 30, 2016, 1:57 am

Still not working for me, just looping from start, cant post picture. Farming 0 pokestops etc etc (I have latest release)

tjapp - July 30, 2016, 2:04 am

i had 40k hour from lvl 5 to like 15, 15-20 around 13k and after that im around 7k/hour with same

settings, no idea why but, more pokemons get away at higher lvls, you dont explore new pokemons for extra xp etc etc, which i guess is the reason.

i wonder how that guy that reached 40 did, 280k XP / HOUR since lvl 1.

i can now log into my PTC accounts again, (was resetted to lvl 1 at club pokemon, and wrong pass/login when i tried log into it via the bot) but it's all back to normal now.

Cecilia - July 30, 2016, 2:11 am

People who aim to level up quickly have never been someone I look to become.

XP/h is no concern for me, I simply plod along at a decent pace.

tjapp - July 30, 2016, 2:18 am

i rather play "safe" and keep my account then rush it, thats for sure, just explained that it's for sure the pokemon GO system that slows down the XP gain/H the higher lvl you get,

If i put Probability less then 100% on Pokemon settings > Use berries on, will it use berries on every catch then ? or is it 0 i should put ?

sprajo - July 30, 2016, 2:20 am

My bot is not working Looping PostLogin again Idle:false i get this error and farming 0 pokemons stops...

Cecilia - July 30, 2016, 2:22 am

(Jul 30, 2016 02:18 AM)tjapp Wrote: [\[CITE\]](#) i rather play "safe" and keep my account then rush it, thats for sure, just explained that it's for sure the pokemon GO system that slows down the XP gain/H the higher lvl you get,

It'll use it on (hopefully) every pokemon.

I've used it before.

(Jul 30, 2016 02:20 AM)sprajo Wrote: [\[CITE\]](#) My bot is not working Looping PostLogin again Idle:false i get this error and farming 0 pokemons stops...

Yeah, read the message. It's no use posting here, it just annoys people.

Vx20 - July 30, 2016, 2:23 am

Just found out about this today, so far has been working great. Thanks. ?

Edit- what can i do so it doesnt sort through 7 Pokemon to transfer dupes ? i have everything in transfer unchecked

Cecilia - July 30, 2016, 2:57 am

(Jul 30, 2016 02:23 AM)Vx20 Wrote: [\[CITE\]](#) Just found out about this today, so far has been working great. Thanks. ?

It's just a debug message, it'll still check their id and if it isn't on the list, it'll simply continue :)

Demonstrate - July 30, 2016, 3:01 am

What I love about GoBot is the fact that I can leave it running overnight with no problem and wake up the morning to see that it's still running. ?

Cecilia - July 30, 2016, 3:04 am

(Jul 30, 2016 03:01 AM)Demonstrate Wrote: [\[CITE\]](#) What I love about GoBot is the fact that I can leave it running overnight with no problem and wake up the morning to see that it's still running. ? It's comments like this that keep me creating new features and improving bugs within the program.

tjapp - July 30, 2016, 4:34 am

i actually catch/find way less pokemons if i use "catch on walk".. 6/H. when i play without it i catch 20/H

anyone else also notice this? i play with 40 movement speed. i remember it worked well before, still botting on same place,

any settings that doesnt work well with catch on walk maybe ?

sprajo - July 30, 2016, 4:59 am

(Jul 30, 2016 02:22 AM)LaPanthere Wrote: [\[CITE\]](#) It'll use it on (hopefully) every pokemon. I've used it before.

Yeah, read the message. It's no use posting here, it just annoys people.

What message please friend help me out... Servers are working but i always get that message..

ninehell88 - July 30, 2016, 6:18 am

Sir Panther, GoBot works wonderfully now! May i suggest some feature? maybe u can add pokemon moves on next update.. Bcuz after evolving high IV Pokemon i still need to be online to check if the pokemon got perfect moveset and decide if i should keep it or transfer it..So with this feature we can directly control from GoBot without online on game.

Cecilia - July 30, 2016, 6:21 am

(Jul 30, 2016 06:18 AM)ninehell88 Wrote: [\[CITE\]](#) Sir Panther, GoBot works wonderfully now! May i suggest some feature? maybe u can add pokemon moves on next update.. So you want to see movesets?

That can certainly be added to the account details page :)

Crowley - July 30, 2016, 6:36 am

Man I love this GUI so neat and organized!
way to go to the creator of this bot.

Any good coordinates or places to go to catch a shit load of pokemon and get XP fast

Is it possible to have the option on the Acc details an Auto refresh? would be awesome.

Unixroot™ - July 30, 2016, 6:38 am

I also would love to see this feature which is already on other bots:-

roam area, I think this is the best bot around but if there is the way so that I can assign it to roam in 20km (example) that would be great.

justsee hacks - July 30, 2016, 6:54 am

LaPanthere thanks for adding option "keep top"

btw please explain me better how? I do not understand what number should I put cp "3"? it should automatically leave the highest cp?

lamaldrin08 - July 30, 2016, 7:04 am

I have a suggestion for the GUI, maybe you can put the logs and login details on same page, I think it would be better. Very nice bot, I just can't get a nice spot and proper settings to get a 50k/hr xp

strokin3 - July 30, 2016, 7:08 am

Is there any way to add the snipebot into the GoBot together?

Breezy6 - July 30, 2016, 7:36 am

@La Panthere Thanks for the bot bit it isn't working for me. I just going in an endless loop and it doesn't catch, evolve, or farm any pokes tops.

"Sorting through 0 pokemon to evolve....

Sorting through 0 pokemon to transfer duplicates

Farming 0 pokestops.... true

Looping postlogin Again- idle false"

How do I fix this?

trinic07 - July 30, 2016, 7:55 am

The bot catches every pokemon, doesn't matter if in catching list or not.

Do someone have an idea how i can catch a huge amount of gastly or dratini or whatever without doing much else?

Cecilia - July 30, 2016, 7:59 am

(Jul 30, 2016 07:08 AM)strokin3 Wrote: [\[CITE\]](#) Is there any way to add the snipebot into the GoBot together?

There is none added directly into GoBot at this time.

I'm not going to add it.

Sniping should be done in a separate bot when you want a pokemon.

(Jul 30, 2016 07:04 AM)lamaldrin08 Wrote: [\[CITE\]](#) I have a suggestion for the GUI, maybe you can put the logs and login details on same page, I think it would be better. Very nice bot, I just can't get a nice spot and proper settings to get a 50k/hr xp

Nope, the log page is separate.

(Jul 30, 2016 07:36 AM)Breezy6 Wrote: [\[CITE\]](#) @La Panthere Thanks for the bot bit it isn't working for me. I just going in an endless loop and it doesn't catch, evolve, or farm any pokes tops.

Try restarting the bot.
Normally helps.
Server issue.

(Jul 30, 2016 07:55 AM)trinic07 Wrote: [\[CITE\]](#) The bot catches every pokemon, doesn't matter if in catching list or not.

That's correct, it transfers them if they're not on the list.

Breezy6 - July 30, 2016, 8:12 am

(Jul 30, 2016 07:59 AM)LaPanthere Wrote: [\[CITE\]](#) There is none added directly into GoBot at this time.

Server issue.

That's correct, it transfers them if they're not on the list. Already did. As of right now I'm only trying to farm pokestops but it's not working out too well. It just do saying farming 0 pokestops... true/false

Another problem I'm having is that I'm being teleported to Kazakhstan even though those aren't my coords lol

Cecilia - July 30, 2016, 8:13 am

(Jul 30, 2016 08:12 AM)Breezy6 Wrote: [\[CITE\]](#) Already did. As of right now I'm only trying to farm pokestops but it's not working out too well. It just do saying farming 0 pokestops... true/false

See event log.

Probably wrong entering.

Breezy6 - July 30, 2016, 8:32 am

Nvm I fixed the location part. It's still not farming pokestops. I check Pokestops under the login tabs but it's still not working. Also, I read the previous posts and I was wondering what message you were talking about? @LaPanthere

justsee hacks - July 30, 2016, 8:42 am

but what's the number 3 on "keep top" ?

Jay71 - July 30, 2016, 8:47 am

Just wondering is there anyway to keep the setting when updating the bot to a newer version?

tjapp - July 30, 2016, 10:27 am

How does it work btw, if i use 4 accounts, same computer, is it easy tracable ? i mean if they WOULD ban 1 acc(which seems unlikely atm), they should see there's 3 more accounts running from same ip ? and my IP is like 500 miles from where im botting, or is the bot using some random proxy IP's ? (or w/e :P) ?

Pepinus - July 30, 2016, 10:36 am

Does this bot have an automatic unban function for softbans like Necrobot?

xSlapppz - July 30, 2016, 7:36 pm

Seems to have really slowed down for me. I'm in the same hotspot where i was catching roughly 30-40 pokemon per hour, now im only catching 9? Has this happened to anyone else? Anyone have any ideas? Would be greatly appreciated. Thanks.

tjapp - July 31, 2016, 12:28 am

whats the max walk speed i can use btw ?

possible to change the radius that the bot works with ?

Kilejna - July 31, 2016, 5:35 am

For everyone that was getting the "Looping PostLogin Again - Idle: False" error, all you have to do is enter the FULL latitude and longitude of the place you want to farm. Eg. Lat: 29.7596952 Long: -95.3694576 | NOT Lat: 29 Long: -95

Cecilia - July 31, 2016, 6:43 am

(Jul 30, 2016 07:36 PM)xSlapppz Wrote: [\[CITE\]](#) Seems to have really slowed down for me. I'm in the same hotspot where i was catching roughly 30-40 pokemon per hour, now im only catching 9? Has this happened to anyone else? Anyone have any ideas? Would be greatly appreciated. Thanks.

It's due to the new limits on the api.

Can only scan for pokemons once every 5 seconds otherwise it'll return 0 :)

ninehell88 - July 31, 2016, 8:08 am

Hi, i have some problem..previous version of GoBot immediately transfer pokemon i caught below my requirement. Now GoBot keep weedle with 90 CP and 20% IV even after i put transfer requirement 1000 CP and 90 IV. Any idea why is this happening? I am sure i did put right transfer requirement with exact data from previous GoBot..If this keep happens when i dont check number pokemon i have..my pokemon slot will be full.

SavageAF - July 31, 2016, 8:37 am

Getting this error now regardless of whether or not the credentials are correct

<http://pastebin.com/d8MqUR54>

Destrox - July 31, 2016, 9:39 am

I'm alway getting this error:

```
[18:20:54]    Starting Execute on login server Ptc
[18:20:58]    Sorting through 0 pokemon to evolve...
[18:20:59]    Sorting through 0 pokemon to transfer duplicates...
[18:21:00]    Farming 0 PokeStops... True
[18:21:12]    Looping PostLogin Again - Idle: False
[18:21:12]    If this is happening a lot it means the Pokemon servers are
unstable, do not spa...
```

I tried it with my lvl 7 account and with a completely new one.

Fish - July 31, 2016, 9:58 am

(Jul 31, 2016 08:37 AM)SavageAF Wrote: [\[CITE\]](#) Getting this error now regardless of whether or not the credentials are correct

<http://pastebin.com/d8MqUR54>Are u running game it from a cloud server, vps, or something g similar?

haabibi - July 31, 2016, 10:25 am

Can you add a power-up function somewhere? :)

Thanks for the amazing work tho, this bot has worked flawlessly for me for the past 3 days!

lamaldrin08 - July 31, 2016, 5:37 pm

Anyone having trouble logging in to PTC? I can't login since yesterday.

Minato Namikaze - July 31, 2016, 5:45 pm

Anyone have good settings?

Mine are rubbish, need some better ones.

<http://prntscr.com/c00kc4>

Nope my personal computer atm

Yin Yang - August 1, 2016, 10:01 am

Bot seems to be crashing and not running properly. Is anyone else getting this? I'm getting an error trying to refresh my Pokémon list.

justsee hacks - August 1, 2016, 11:16 am

All the coordinates sites are given with (dot) example 40.7127837 Yours two programs only accept (,). it is possible to change this?

tjapp - August 1, 2016, 12:48 pm

i get errors all the time when i use catch on walk, i basicly catch 0 pokemons per hour while using it, and as well errors when u refresh pokemon list,

ninehell88 - August 1, 2016, 8:59 pm

(Aug 1, 2016 11:16 AM)justsee hacks Wrote: [\[CITE\]](#) All the coordinates sites are given with (dot) example 40.7127837 Yours two programs only accept (,). it is possible to change this?

1. Open Regional and Language Options
2. Under "Format" pick another regional setting (eg: English (United States)).
3. Press "Apply"
4. Under "Format" pick your original desired locale (ie: Finnish)).
5. Press OK.

Chup - August 1, 2016, 9:02 pm

Wait did you make this bot yourself op, the interface looks very nice, I also like how everything is separate haven't seen a bot like this yet.

?????s??? - August 1, 2016, 11:13 pm

3 issues:

1. Random Errors

<https://i.gyazo.com/c3e9d021ad6dae248708e367b951d864.png>

2. Wasting Pokeballs With Low Catch Rate

<https://i.gyazo.com/f94d2bc492f84d5b013b7eb0781f1d2f.png>

<https://i.gyazo.com/be53540b39bf3dd4b6e4642ed128bfac.png>

3. Not Collecting XP/Items From PokeStops

2 & 3 may be the result of a soft ban!? (haven't teleported though)

Other than that, it's the best bot I've seen on HF.

Great job. ???

Here's a progress report!

justsee hacks - August 2, 2016, 5:43 am

(Aug 1, 2016 08:59 PM) ninehell88 Wrote: [\[CITE\]](#) 1. Open Regional and Language Options
