Thread: [need more champs to main for other lanes.](#)

HackFourmIsHelpful - July 23, 2016, 2:08 pm

As title says I need good people I could main. Currently I have jungle: Kha'zix, Zac.

Mid: karma

adc: Lucian, ezereal

support: Leona

top: (None)

I need one more for support and 2 for top. What are some good suggestions for gold elo and above to main and some what a carry champ.

Prefer a plat + player to answer this question.

Pick Champs that work in more than 1 role,

Lee JG or top, Yi Jg or MID, Akali, rize, kata, azir are all top or mid. vayne or graves can work in top and jg.

If you are looking to climb, why do you play every role?

DanksterLuc - July 23, 2016, 3:24 pm

Assuming you are playing ranked since there is no real point in carrying normal games. First of all, Dont use fill. Since dynamic Queue is released you get your 2 roles anyways unless you are really high elo then autofill gets enabled. Just don't pick support and focus on 2 roles that are the most fun for you. If you want to improve I would watch vods from Diamond 1+ streamers and analyze the gameplay and ask questions like " Why did he play it that way, what happened if he wouldve played it different"

You guys are totally right XD wasn't sure what I was thinking. So what is a good choice to main top, I choosed irelia so far. I want to jungle regardless but if I end up top I want another incase irelia is ban. Any suggestions to that?

Fiora is coming back into the meta. Vlad is also strong at the moment

Kennen is a pretty good top and mid laner who isn't banned very often.

Trundle/Gnar/Maokai always pretty solid picks.

pick up braum very good at engaging and disengaging and has a really strong laning phase

To be completely honest, J4 mid has surprisingly good burst and catches people off guard quite a bit, I would say he's a good pick up (and easy to learn).

honestly here's my list:

Top: Irelia, Gnar, Trundle, Vlad

Jungle: RekSai, Gragas, Kha

Mid: Karma, Ryze, Vlad

ADC: Sivr, Jhin, Vayne

Support: Braum, Nami, Karma, Sona

Easy champions to learn are in white so you can practise the role while not having to focus too much on what your champion does

Cereal Milk - July 25, 2016, 2:14 am

Top: Irelia, Jax, Gangplank/Ekko

Jungle: Rek'Sai, Gragas (I wouldn't play anything else in the jungle except maybe Vi since this meta is complete Aids)

Mid: Twisted Fate, Ekko, Fizz, (Maybe Zed, Situational)

Adc: Jhin, Twitch, Miss Fortune

Support: Morgana, Zyra, Karma (These supports are crazy busted atm)

These are all my suggestions, frankly if you want to climb limit your pool into 2 roles with 3 champs in each, Goodluck OP

Thanks guys, really does help.

Vlad top is really op and also very fun to play try him out.

Elegant - July 26, 2016, 10:18 pm

You should go and try out Cho'Gath for mid. He's a really beastly guy and if you could build right you can eat up all your opponents, no pun intended.

I think Xin Zhao is one of the best picks for top lane. He has a gap closer, decent sustain in lane, lifesteal on W, knock-up on Q and has great dueling potential.

I currently have 80k mastery on Xin Zhao, my build path is Trinity Force -> BoTRK -> Dead Man's Plate -> Spirit Visage -> Youumu's Ghostblade -> Sterak's Gage.

Choose two lanes that use similar champions and pick about 3 that you like. You have to focus on becoming better at one thing. Don't be a jack of all trades but a master of none.
