I've made \$500 with Local Business today

Selling Ice Cream and Coffe bought some POKEMON LURE MODULES and placed them next to my shop 30 people per half hour came!

We own 4 shops and 1 real estate so far let's hit the 1 million mark.

That's a genius way to make money and please Pokemon Go users. I can't believe how much of an impact this game has had on society.

Gonna bump this so more users read/see this. I'm pretty impressed and think other users should apply this practice to their businesses if they have one. Grats again op!
