It's time to ditch Skype and TeamSpeak.

All-in-one voice and text chat for gamers that's free, secure, and works on both your desktop and phone.

Stop paying for TeamSpeak servers and hassling with Skype. Simplify your life.

For those of you that don't know what discord is, or have never used it before, you can download it [here](#).

If you're a Synergy member and haven't been ranked in the discord please pm me on HF or through discord.

Rules of the server

1. No harassing or flaming other members. This channel should only be used for chatting and gaming.
2. Do not post infected/malicious links. If you're caught doing this you'll be banned from the channel.
3. Do not post screamers/annoying links.

The whole purpose of the server is to connect the gaming community here on Hackforums. So if you share a love for gaming and want to make some new friends while doing it, then this is the right server for you.
