Thread: [~8 hours of botting, 1200 candys](#)

Reporter - July 24, 2016, 3:31 pm

Stop pm me about pokecolor, get it here --- <https://hackforums.net/showthread.php?tid=5350149>

It's insane.

I have this for multiple pokémons now, over 1000+ candys for like 7 pokémons in my "inventory".

Do you get more/less than me?

Any idea what Pokemon go accounts go for?

ZuGgY - July 24, 2016, 3:31 pm

Wait, what bot are you using to do this, though? Teach me, master Pokemon trainer!

Fizzie - July 24, 2016, 3:32 pm

I have 1100 candies on my Pinsor its freaking nuts

I use Colorbot.

I see no reason to change bots when this one works great.

One thing tho, I have 850 items when the limit is 350, not sure what is going on there but hey, the bot works ?

Yiws - July 24, 2016, 3:34 pm

I've got something like 3,000 zubat candies. Keep going, never evolve, and they're really just keep coming in. It's crazy.

Where is the link to this bot? I just want to take a look. ? ?

DYC3 - July 24, 2016, 3:34 pm

I've been botting for around 20 hours and I have over 2000 Pidggy candies, just saving up my pidgges now to do some insane XP farming.

Kobe Bryant - July 24, 2016, 3:34 pm

I've gotten around 400k+ candies already. But I continue to use them on leveling up my evolved evee's and my eggsecutor's/charzard/venasuar no blastories yet =[

Troja?Hors? - July 24, 2016, 3:35 pm

Hey,

could you give me a link to a tut or whatever so I can set this up please?

Thanks.

You open the program, type in the code on google/Device, let the bot do its thing, there is no need for a tutorial as there is just a .exe that you run

iNk. - July 24, 2016, 3:39 pm

i'm also using poke color.

I love it. No idea why the link to it was removed, all the other bots people have been posting might have a nice GUI but they work like shit.

Good job OP

I still have the file on my computer without messing with the user.xml file in it, should I upload it?

SIM-782322 - July 24, 2016, 3:46 pm

you can have multiple bots running with pokecolor?!?!?

how???????

You open it multiple times, you can run as many as you want. Just make a new folder for each account ?

They litterly take 0 resource so bot 1000 accounts at once if you want

holy shit lol of course!!!
omg i love you!

edit: nice pokeball award too!

That's insane man, I might have to run a bot for a bit to get some candys myself. To busy with real life to play all the time like that.

I have a lot of accounts, 1 that I play 100% legit on, then the rest is just bot accounts for now. Maybe used for trading when released, or sell accounts once they reach level 40 ?

If you spoof to my location it will probably give you a softban as I am 99% sure we are on the other side of the world from each other?

I spoofed from Disneyland to New York to Miami to Belgium and Dubai xD

Just gotta wait 30-40mins and it won't be a problem :P

Hern - July 24, 2016, 6:27 pm

Nice job man! I had good luck with this bot the first day or two but after that it would soft ban me within 5 minutes. Not sure if it does things too fast or what but that is why I had to switch to a slower bot.

Did you open your phone while botting or something, haven't experienced any problems when botting for longer periods

Mr. Robot - July 24, 2016, 6:34 pm

Caught all the pokemon on one account just botting, level 31

Lethalz - July 24, 2016, 6:46 pm

Lol why is this game so popular

DanielTH2060 - July 24, 2016, 7:59 pm

Thx! But 1 last question, most bots require visual studio 2015. Does this one require it? Cuz hopefully it doesnt because when i try to install it, it doesnt work and says i dont have right resources in visual studio. I dont wanna download the bot if i need visual studio cuz i dont wanna get hopes up.

Insurmountable - July 24, 2016, 8:00 pm

What location do you use when botting? I think mine must be bad, because I don't get nearly as much XP or candy as you do in that time period. I need to switch up my strategy I think.

Elegant - July 24, 2016, 8:44 pm

Holy crap that's a huge load of candies that you have for your Pokemon. You can evolve any at any given time once you find another of the same species.

Pc Master Race 1440p - July 24, 2016, 11:01 pm

No, he's using a different bot called PokeColor. He made a thread about it with the download link (safe to download/use)

Yes, clearly. But it seems almost identical despite a few changes so I presume they are all running off the same "base" bot?

It's possible they use the same source. I used both, but NecroBot is more advanced than PokeColor, but PokeColor is a good bot for starters

Ah I see, thanks for that. Was quite confused as to all this talk of different bots and when comparing them seeing how similar they look. Makes a bit more sense now. I personally use Necro so was curious as to if I was missing out on any features haha.

Pc Master Race 1440p - July 24, 2016, 11:21 pm

Lol, guys pokebot was the first bot to release... stop acting like its advanced tech or something.

almightythor101 - July 25, 2016, 12:21 am

Thank you sir, this is the best one

Pronghorn - July 25, 2016, 12:35 am

PokeColor The only bot we need in your poke lifes. Currently waiting 5-7hrs before starting up the bots. Swapping locations is a pain :/ got 1k+ Pidgey candies right now on my main bottled account and going strong
