Thread: [My Private Spreading Method. ~ Autopilot ~ Guaranteed Installs](#)

Elliot Alderson. - July 25, 2016, 10:14 am

I've decided to give my own private spreading method away, to High Quality users only.

All I ask is that when you receive it, you leave a quick little vouch and review on my thread.

The method is thought up by me, and I brought the scripts that are included in the file, therefore I atleast want a vouch on the thread for sharing this with you guys.

PM me, or add my skype with a Link to your hf profile (I'll be PMing you.)

To get this method from me.

I hope you guys like it.

A legit community alert is harassment?

VirtualMon3y - *July 28, 2016, 6:35 am*

Hey Clay, Thanks for the copy to take a look at.

Have I seen this method before? Yes I have so I understand that you couldn't really sell this however it is nice that you included the script for it to make things easy for users. The ebook is well written and presented so all in all a good method and easy to follow.

This method really has very few limitations if done correctly in my opinion.
