First of all i'd like to say i am absolutely RETARDED for dealing with this guy, I haven't dealt in ages and forgot to check for deal disputes and well... I just saw his rep and thought he would be cool...

All evidence was taken from a OBS recording hence the quality may be a bit low..

This is a video of me scratching the code LIVE infront to proove its legit. (You can see the stuff in BG)

He then goes blank for a bit... and then accuses me of scammn

He then goes on calling me a scammer and threatening a thread? He doesnt unprivate his inventory (<http://steamcommunity.com/id/Erosive/>) then goes offline.

He has literally 2 pages of deal disputes which you could have found from a two second search.

Be happy that you didn't get scammed for more and let this be an eye opener to you when dealing on HF.

Is there anyway to report a -rep he gave me. Calling me a scammer yet no thread.
