Program: QT-coin

I've hardly ever used OMC but I cannot get the program to sync and I have no clue what to do to actually get it working properly so I can see and use my OMC.

You can't get the program to sync because OMC doesn't exist anymore.

AH crap

Well thanks for the input guys I've been wondering
So no OMC is good or usable anywhere any more?

XD

I try to open it up every so often

I received like 15k coins quite awhile ago but didn't have use for them at the time

Omni-Coin is a retired coin man, I miss the days but then again, new things come from the old. It was cool while it lasted, made some good flips and got the OMC award lol

OMC is dead an gone my friend. Unfortunately your 15k coins are would nothing now. A few members attempted to revive it a while ago but unfortunately that failed.
