Thread: [Community Run Pokemon Locations - Great for Sniping](#)

Hydra - July 26, 2016, 10:43 pm

I just saw services of people selling GPS coordinates for sniping pokemon. There's a community of generous Pokemon Go players who report locations of rare and regular pokemons for you to snipe. Check out this [thread](#) to learn how to teleport to snipe without a soft-ban.

It's a discord server. Please be respectful and don't act like idiots. There are a lot of moderators and they'll mute/ban you for breaking the rules. Read the rules and be appreciative of what the members in that discord server are doing. Don't troll or break any of the rules.

Anyways, here's the invite link: <https://#/sTQBGpm>

It's probably a one-time-use invitation.
