Thread: [\[FREE SERVICE\] Catching Rare Pokemons For You \[FREE SERVICE\]](#)

lol i kill - July 27, 2016, 5:46 pm

I've never done anything like this before but i'm offering a free service of catching you 1 or 2 rare pokemons such as dragonite, charmander, jolteon, snorlax etc etc

I'm doing this for free, so if you want to test this with a new account then I can do that for you :)

I'm doing this because i'm feeling generous right now it's weird lol.

I'll probably only be doing it for 40mins-1hour so be quick!

NOTE: I've clearly said you can trial this with a new account so you know that I am legit.

P.S; This is just a quick service that I'm doing out of generosity and I am not charging. If you are inflicted a softban or perm ban I am not to be hold responsible. (Even though soft bans are usually only temporarily and not common with this method but I do need to just put this out their!)

Peace :)

If their is a specific pokemon you'd like me to catch for you then please just say (cannot guarantee I can catch that one, however i'll try. If I can't catch that one, i'll just catch any rare one for you ?)

MODS: If this is the wrong section, then please move it to the correct section please. Although I do believe this is the most suitable section to be posting this in.

EDIT: Can a mod lock or close this thread please, don't think anyone is interested. Plus I was only going to do it until 2:20am and it's already 2:15am... Cheers

Oh sugar, can a moderator please close/delete this thread please...

My apologies! :grate:
