Thread: [What Backwards Compatible Games you play?](#)

Splice - July 27, 2016, 8:38 pm

What are your favorite games or games you play that are backwards compatible from the one?

I been playing black ops and rainbow six vegas 2

Sakuto - July 28, 2016, 5:14 am

I do not understand your question, backward compatible with what?

Overcome - July 29, 2016, 1:04 am

I tried playing Halo Reach, but the different in frame rate makes it almost unplayable on the xb1

I think he is talking about next gen consoles and old consoles, like Xbox 360 and Xbox One

I have only played ps1 games on ps2 and it was a looong time ago.

When ps3 came out i wish it could support ps2 games, but it didn't.

Unless it's Black ops 1

you guess good man . for real wtf guro ??

i play bo1 , the best old cod .

Allelujah - August 1, 2016, 9:34 pm

Black Ops 1 is really the only one I play.

Vegeta - August 1, 2016, 9:51 pm

I don't play much B/C games anymore, but I used to play BO1 and Halo: Reach every now and then.

Yeah, it's almost like they did not even test it out once they made it backwards compatible. It's pretty obvious within 10 seconds of playing that it's not playable lol.

Honestly, I'm waiting for Skyrim to come out. Other than that, I feel like B/C was a waste of time. We all wanted it, but never really use it.

I mainly wanted it for the old COD's and Skate 3, along with Soulcalibur of course. :)
