Good luck with sales, probably a thread design would help.

You are so desperate to earn \$9 that you sell a method to make \$200/day? If you made \$6000 per month, you wouldn't want to earn \$9 on some strange forum.

New on this whole forum thing. Used to give courses for \$350 and give this method to you for free

but took a break from giving classes and thought; i don't need to be greedy.

Just spreading the love man.

That doesn't have to do with being greedy. It has to do with capitalism. You are not getting any major difference in revenue or profits by selling a guide for \$9. If you truly make \$200 a day, you would replicate it and make \$400 etc a day. Looking to make \$9 from 2-3 customers is just sketchy.

I bet those 4 easy steps are...

1. Find a Forum (Topic) full of People who want to make Money Online.
2. Find a shitty FREE eBook on Google.
3. Rehash it with shit loads of aff Links and re-brand it as your own.
4. Sell it on said Forum (Topic) for around \$10 and hope to get a lot of Sales.

I was doing this kind of shit on another Forum and got banned, it's not worth it, even if it's not the same thing as above, it's still probably a load of shit.

There are methods to make Money online that don't involve scamming or ripping people off, I know they are difficult to find, but they do exist.

Do yourself a favor OP and take this Thread offline :)
