I am not a fan of music like that at all but something about them makes me like the music they make.

You like them or naw?

W?lf - July 28, 2016, 9:24 am

I fucking love them! they have great songs that have true meaning in them and not some stupid bullshit about god knows what. I love every single one of their songs.

Zanwald - July 28, 2016, 9:25 am

Haven't heard any of their recent stuff. Have any suggestions? I listened to them back in the day.

He'll yeah I'm jamming to stressed out right now ;D

I prefer their older album Vessel over Blurryface but they both have good meaningful lyrics.

My favorite song from Vessel would probably be Holding On To You.

I'm on the fence when it comes to them myself.

I enjoyed their older stuff a bit more than their newer stuff, but songs like Heathens and Blurryface are probably some of my favorites from them.

feijocatesa - July 28, 2016, 4:11 pm

@OP I really liked Car radio, was an amazing song.

When I first heard them I used to think that they were emo as fuck, then I drank a lot and listened to them one night and really enjoyed it because of the mindset I had.

Ataskuri - July 28, 2016, 5:22 pm

Theyre a fresh sound in my opinion, feels like they try to hard to be relatable. But that might just be me, I like stressed out however.

fangirlnat - December 22, 2017, 2:26 pm

I freaking love Twenty One Pilots. They have something really special about themselves. I love their originality and their personalities. Tyler and Josh are the most talented people I've ever seen and heard of.
