I have never talked to any of them before in my life. Below are reviews from them!

(Jul 30, 2016 12:23 AM)Sw?er?ve Wrote: [\[CITE\]](#) Hey, I was given a vouch copy of this EBook and I would just like to say that I am in no way affiliated with him.

You can verify that here <https://hackforums.net/showthread.php?tid=5354079>

What I think of this EBook is that OP explains a method where some people know but don't know how to efficiently execute, he step by step shows you how to complete this method via a video which I think will be very useful for the people that buy which are kinda confused or English isn't their main language and on top of that he even shows his earnings from the method in the video to further cement this works.

He also provides some sites in which you can do this method and basically guides you through every single part of the method

Overall, if you follow the method how he showed you, you will make money

(Jul 29, 2016 09:21 AM)Madeleine McCann Wrote: [\[CITE\]](#) I have received a vouch copy of the e-book and here is my honest review about it.

Method :9/10

The method has a good potential to earn your money back, you've to put a little bit of money in but can receive double or triple the amount back. The e-book is very user/newbie friendly so there is no way you can't get the method wrong... As well it includes video tutorials.

Layout :8/10

The layout of the e-book is nothing fancy and is very straight forward, it's sectioned (headed) on topics to make it easier to understand and what you're reading about.

Language:10/10

Overall I didn't see any grammatical mistakes while reading the e-book, which shows OP has spent time proof reading and checking over, basically meaning he took time to write this e-book.

Overall :9/10

The method is worthy if you decide to put time and a little money in but you'd make your money back easily by following the steps one by one.

(Jul 29, 2016 08:42 AM)SebWinfield Wrote: [\[CITE\]](#) Alright, update on this method, I received the e-book, it's an easy read and very very easy to follow, If you do as the book says and follow the correct instruction you will make money without a doubt, This is a very well put together method. Everything is explained in full detail and this method cannot get saturated, It does need an investment to start but it does not need a large investment.

Using this method you won't lose money, and you won't be disappointed with the results.

There is a short video included with the ebook on how to use this method and it explains the process well.

This is not a biased review as this is the first time I've spoken properly with StuffSneak.

No mate. Its not like that. It works worldwide as stated on thread. I only needed reviewers from UK so they could actually verify it's legitimacy faster as one of the examples I have given in the product is referenced with UK.

Be assured everyone though, it works worldwide as stated in OP.
