Okay I bought the ebook a few days ago and at first I just thought it's nothing special but yeah it is a good and simple technique which does work. The trick is.... to not get greedy lol. I have made like 200\$+ in 3-4 days (beecause i wasn't consistent completely) without any effort and I made 60\$ from a single guy just before writing this review. Nice method. thanks. ?

Edit: Just applied it again and got another 15\$ so total 75\$ from one guy.

OziHF - September 12, 2016, 2:13 pm

I bought this method and I go be sincere, I feel really dissapoint... I don't have the best grammar but I do my best for explain so the people can understand.

1- You tell me the friday I need buy because after the friday you aren't going to sell this method never again, and now you are still selling this method and paid for a sticky....

2- You say "Never seen on Hack Forums." this is with a poor paint edit, I ask you about the font you use atleast and you say for I search on my own and see one who look similar.

3- the bonus methos a LOT OF people tell before here in Hack Forums too, nothing new or special...

I just feel scammed, I buy the second package so I really like a refund.

This is my honest review.

You give me negative reputation for be sincere with my review?....

Cryzonservices - September 12, 2016, 3:09 pm

You never tried my method. You read it and you told me that its cool and you had asked me is it working on phone ect ect ect... So prove me that the method did not worked i will refund you now.

I'm sure You can't because it works %100.

And i havent neg repped you.

And i can start my sales anytime i won't ask your permission.

OziHF - September 12, 2016, 3:22 pm

I never ask you if work in phone ... wtf?? ... the method IS ALL SPREAD over hackforums... and this is what you say for do in the "ebook" ""Never seen on Hack Forums.""... funny, and you say you never again go sell when you are selling again...

And when I give a REAL review, you give me negative. Lol.

and yes I tried your AWESOME method of 35\$... the people just say they are going to wait the 3 days for see if they recive the refund... or the money go out of the bank so they can't do more... logic one stupid go trust and sent again but this is simple -----DELETED-----... Stupid people is all over the world, like me who trust in you and buy this awesome 35\$ method. ;)

"Never seen on Hack Forums." "Grab your copy now! Or never! " I never go sell again so buy it today.

I'm sure u aren't going to refund me the money because from the start you do this "ebook" just for take the money of the people, well you are 35\$ more rich... good job.

Have good luck with your sell.

WOW REALLY QUICK REACTION, you just deleted the negative review, are you a kid or what??..

-3 I think you deserve this... is what you say in the negative review, is fun now you deleted this ;)..

I never say you need my permission for sell this excelent ebook again, but atleast don't lie to people, and say you NEVER again go sell this ;). But I think maybe you can't write and stop of lie, like with the reputation, first give me negative reputation and after return to posivite "And i havent neg repped you." ...

I would like my vouch for this product removed. I was shocked when this user has scammed me out of \$85 AGC despite my generous help (which he begged for) to get him \$30 when he would've been "fucked" otherwise. I went as far as to give him access to my coinbase account when he was in a jam which made it all the more devastating when he scammed me. This user is clearly not financially secure off his "methods" since he would cut ties with a friendly acquaintance in such a gross manor just for \$85, so you know it's one of "those" methods... I also admit that my vouch for this product was dishonest as he basically accosted me until I vouched for it, that's the only reason I bothered.

DEAL WITH EXTREME CAUTION.

I will not let this users scams go unnoticed. I helped CryzonServices when he was in a bad situation, even went as far as giving him access to my coinbase because he needed \$30 or he would have been "fucked" otherwise. Months later I go to him to exchange \$85 AGC and he tries to play some obvious ploy like the card I sent was invalid. The card was absolutely valid which I always make sure before sending. This was the largest amount I had ever sent him so there's no wondering why he decided to cut ties here.

What made is obvious that he was scamming me was his reaction to my reaction... I said "Please... don't do this, I need all the money I get my hands on, I know it was a valid card and I know you might be in trouble but it would fuck up my life right now if you scam me" and then he said "don't waste my fucking time" like wow, getting defensive rather than trying to reassure me of his legitimacy.. You know as well as I do that's the cover-up go-to response of a lying scammer. I was expecting him to act more sympathetic to the situation, as anyone would if they weren't actually scamming.

As for this method, I demand my vouch be removed. He literally annoyed the fuck out of me until I just gave in and left a dishonest vouch, I admit my vouch isn't genuine. This is probably the case for

most vouches here, and I can tell you from using this method that you're definitely not going to increase your earnings, it's just an alternative route to earn if you're bored with the normal way.[/b]

I must say that the support is quick and high quality !

But when it comes to the method ! It's actually not a method :(
It's just like any other E-book ! It teaches you some Social Engineering..And some Tricks and tips to increase your earning ! Basically the books contains tricks and SE which can maximize your CURRENT EARNING ! If your earning \$1 now you will earn \$3 ! If your earning \$1000 now you will earn \$3000 ! That's it :)

Thanks !!!

FALSE

As a buyer of this method, the earnings estimate you threw out is definitely untrue, and it's really disgusting to see CryzonServices scam the community further by having his obvious friend leave some fabricated vouch. What you're doing is akin to sales trashing, you're just doing the opposite which should be equally frowned upon.

The immoral ploy used in this method will lead a small percentage of gullible people to pay 2 or sometimes 3 times the cost of your transaction. Cryzon blatantly neglects to mention this only works with AGC, and conveniently assumes the outright obvious falsehood that every transaction you make will benefit from the ploy, when in reality you're lucky to pull this off once a day.

It should be mentioned that Cryzon certainly annoyed the living fuck out of me to vouch, so I just gave in and left a nice endorsement. It's quite obvious that your vouch only serves the purpose to obfuscate my warning post, as you were likely accosted by Cryzon bemoaning you to leave a good vouch when he saw my post. CryzonServices scammed me for \$85 dollars. I won't let this go unnoticed, and you will suffer the consequences, Cryzon.
