Thread: [>>>> PokemonGo Rocket API Bot : GUI NOOB FRIENDLY! PRECOMPILED! FASTEST! <<<<](#)

ThisIsCyn - July 29, 2016, 4:49 am

Well i see everyone using other bots but i hvnt seen any threads about the one i use so i thought ill make one. Let me make this clear i have 0 intentions of ratting anyone so ill include my compiled version and the github source

This bot now includes a force unban (note the maps is buggy)

I personally get 56k an hour with these settings

Its really really good 74k an hour atm xD

Noxiu - July 29, 2016, 6:07 am

Bad... Haxton does minimum 100k/h
necro maxing 100k/h
Make bot that does at least 200k/h and it will be decent :P

Darkblazeit420 - July 29, 2016, 6:52 am

i owe you one for this master piece thank you man <33

bbbldy - August 1, 2016, 6:59 am

Thanks.. this is great... please update if there is new version :)
