Spoiler ([Click to View](#)) I really didn't want to do this but I had no choice.

Long story short, I received vouch copy from Zachary regarding his ebook/method and I realized it was public and literally everyone knew about it.

Zach threatened (?) that he will open scam report on me if I leak his ebook so I will not do that.

I can't leak something that has been public for almost a year now.

TL:DR = Play game and click cashout, you will see where mine(s) are and next keep doing that until you see bomb on same spot 2 times in the row and next game just bet there.

Method (same as one he is selling) :

I can't really post more proof because that would be considered as leaking his super secret 1337 method but I will do it if I have to.
