Thread: [What should i do with these domains?](#)

CSGORB.com - was for csgogambling but now that its gone not sure what to do with this
ActuallyAwesome.com

Would love to somehow monetize both of these.

ActuallyAwesome to me would work out something similar to an FML or Notalwaysright type of website. People post their stories of some boring thing that turned out being awesome. Pretty much an opposite of FML lol.

Not to sure of the CSGORB though.

ActuallyAwesome would be a cool media sharing site in my opinion. Or you could pick out the best stories from around the web each day and display them. That would actually be quite awesome :)

The guy who owns the domain www.actuallyawesome.com scammed me, so that means you're a multi-accounter: <https://hackforums.net/showthread.php?tid=5344528>

Yeah... I just looked through the things you posted / OP's account. This is definitely worth looking into.

Pm'd you. Dont call me a scammer for something my Buddy did to you. Take it up with HF Staff. I dont know you nor do i know what happened between you nor do i care honestly not to be a dick. not my business. Buddy no longer will be using domain. You have his skype talk to him. If i was a multi i would of been banned for being on the same IP. Glad we could clear things up.

Yeah i know what you mean, thats true. but I was registered on this site before that guy even got scammed. So its not my fault and im not going to sit here and be blamed for something i had

nothing to do with. nor should i be.

Actually you joined the day the scam report was opened.

And I don't think it's a coincidence that the scammer's name was "imnerdist".

We both have similar online handles. His steam is even Imnerdist mine is Nerdist. Im also Nerdist on CPAElites & BHW. Which i think he is also a part of as well most likely with his name ImNerdist. Like i said let HF Staff handle it but i dont even know the guy and hes calling me a scammer so i was solving it. Him and the HF Staff can fix all of it was just getting myself in the clear.

I think the funniest part of it is the fact that he tried to pass off that he goes by "Nerdist" while his friend goes by "ImNerdist". Nobody does that Imao

ActuallyAwesome has potential for the following:

- DidYouKnow Copy
- Discouned products and other marketing
- Fail Army copy

and loads more.
