REKT, i don't know why people are stupid to ask for this kinda stuff over skype

SIM-2908357 - July 30, 2016, 4:02 pm

I don't mind if people ask for vouches, but asking for fake vouches is fucked up imo.

Lmfao that is great ??

This is his reply but it doesn't make any sense imo.

(Jul 30, 2016 03:01 PM)StuffSneak Wrote: [\[CITE\]](#) I am going to say this:

This guy is metroboomin or whatever it was. All fake things and products.

Before, Everyone knows before multivouching rule came into place, everyone was doing multi bumps and this to survive. The logs he has given are way old like almost a month ago I think.

He got mad because I called him out on skype chat because of a suckup and failure he is scamming others.

All my products are legit. I have 100+ customer base and you can see my products filled with customer reviews and not just bullshit this guy talks about.

I am going to temporarily lock my sales threads. BUT you can go and see what my "CUSTOMERS" say about my products by visiting threads below:

<https://hackforums.net/showthread.php?tid=5323146>

<https://hackforums.net/showthread.php?tid=5139632>
<https://hackforums.net/showthread.php?tid=5342039>

I take pride in this that I have 100+ customers who are happy. My products are not any 2 page public guides. I have 1 product worth 160 MB including everything from guides, videos tools. One with 70+ 100% satisfied and profiting customers with 30+ payment proofs. I have never sold any public or nonworking product on HF and I never will.

Peace.

please stop doing that white text italicized atrociousness pls

minimalist - July 30, 2016, 4:28 pm

I'm neutral with StuffSneak as a user but I do have to say that this is messed up. It's not too far from what other marketplace sellers are doing though.

Vouching for someone/bumping their thread is not the same as creating fake proof.

This has all got rather chaotic very quickly indeed.

Whatever it is, I hope it's all resolved asap.

Best of luck to everyone involved, I'm out.

Cyam - July 30, 2016, 5:01 pm

Even though I'm an e-Book seller and you're an anti e-Book activist, I like you a lot. It's kinda shame that people do this over Skype especially to random people thinking that everyone would just blatantly post fake earnings proof.

This is so pathetic , even payment proof is fake? I'm wondering how you are still selling here.

Payment proof has been faked since the dawn of ebooks.

Via the report button or with a thread?

Why are so many people in the community doing this scam where they pull up these fake vouches? Hack Forums used to be a place where you actually had to build trust and vouches at least held a little weight. Now every vouch is either paid for or just part of the trend as a means to get your post count higher. Shit is ridiculous.

Even my bragging rights thread, was a video of me going through my PayPal. But this dude, is super sad.

It is the culture here on HF to show newbies they are "trustworthy".

Malicious007 - August 9, 2016, 11:58 am

this is why hf is full of shit products
