Another free service from me. I will login to your acc and snipe a pokemon, as some people don't know how to do this. I'm using a semi-public method. Just pm me your acc details and tell me which pokemon to snipe. And no, there is a 0% chance to receive a softban.

+Rep and of course Vouch

Everything that said that needed to be done was done and I am very happy with his work!

Trusted in my book :)

Cheers, ?

I am using your other lvl 20 service. Can I use this one too?

Either way thanks :)

Pokemon Go has just released a new update that is resetting botted acc's exp. The accs might take a bit longer as I need to work around this.
