Since when does "SS" mean "Switch Side?"

It always meant miSSing and you explained silence twice and forgot to explain what you can't do during a knockup

My bad buddy..

I'm too sleepy that i write twice , and connect between a thing to another thing (ss).
I fix it , thank you very much for putting an eye into it and letting me know.

I gonna sleep now.

btw -

sometimes i say SS like "Dude wanna ss? "this yasuo counter me and its hard to me to play against him"
but i didn't mean to that .
