The Hacker 4chan - July 31, 2016, 5:17 pm

I know and have partied with Maisie Williams many a time over the past couple years. She went to my school & I have her private facebook on my friends list (it has a fake name)

What'd you like to know about her?

No, not really. Her boyfriend is almost always with her. I know her boyfriend much better than I know her, and he's just a normal dude.
