Razor Dz Trigger - July 31, 2016, 9:16 pm

Hi, my name is Dr.M00N and I've been shelling websites for a while now and reached around 1000 shells, I would like to sell my cpanel shells I am currently using WSO shells and the shells have full writing access and some of them even have access to shell commands. I am selling one cpanel shell for \$3 and I am offering bulk discounts.

Prices:

1 shell | \$3

5 shells | \$15

10 shells | \$25

If the shells die in less than 3 days I will either refund or replace your cpanel shell.

Message me on Hackforums in order to purchase.
