Thread: [NEED A QUICK LOGO - BLACK & WHITE](#)

Internet Explorer. - August 1, 2016, 3:04 pm

Hello guys.

I'd love the colors to be white and black.

If you could make it look like the face of a panda or something, it'd be great.

I need it for my new Youtube channel.

1920x1080 would be nice, and if possible, I'd love to receive the .psd file as well.

Need it within an hour, so if you could do it within that timespan, please do so ?

Thanks a lot! ?

Goodluck with this dude, anyone who helps you out on this is bound to benefit from some of your knowledge.

Thanks a lot, bro.

Love helping people out, and would appreciate if someone could hit me up with this simple logo I need for Youtube.

Don't you need any text on it?

Well, Panda Uploads or PU would be awesome.

I made a P and put an U under it (connected), and it looked pretty good.

Not sure if it would fit a logo though.

FUCK, THIS IS SO PERFECT!

This is EXACTLY what I was looking for - also, since my channel have a weed related theme!

Thanks bro! <3

Could you maybe give me the .psd file?

EDIT: If possible, please do something else with the text.. it definitely needs to be bigger :P

You can just use the original and crop the white background out and use your own text. (Blunted Panda)

Oh.

I wouldn't like something that's 100% copyrighted :S

I found the original and posted it...

WaterM - August 1, 2016, 4:21 pm

Yes, I did not make that. I never said I did ;)

Would never ever waste my time doing that for free anyway.

Cool! If you could make the "U" in "Uploads" uppercase, that'd be great :)

Quick question:

How did you make the nose?

This + "Panda Uploads" Text under it.

To make a design like that you would use the pen tool + illustrator.

Yeah no worries man don't expect anyone to actually make a custom vector logo of a panda for op for free.

I'm just saying that I credited original author/site, just so some of members don't think otherwise. All good

"Lol I bet he doesn't have .psd"

I wouldn't ever do this for free. I'm pretty sure I have the .psd or I wouldn't be able to do this with photoshop ;)

Internet gives me that nice rep, no wonder why.

Tunechi - August 1, 2016, 4:43 pm

I'll make a design but I'll leave the text part up to you
