Thread: [vulnerable sites large companies simple exploits](#)

creativethinker93 - August 2, 2016, 2:23 pm

So over the last year i have been spending many hours, on Google hunting down sql vulns i have collected a large bounty of large companies that are vulns did u know pilotflyingj.com (big gas company)

sql vuln very easy don't even need a tamper script ;)

pcigaming (casinos and poker) all sites are vuln
so simple kenticos cms 7 """"blank admin pass?????, default!!??? really""""

securus. inmate telephone i hit em 2 years ago 6 months ago the some on leaked alot info on them they publicly announced. the breach guess what?

sql injection method post. there still vuln..... why?

Exxonmobile sql vuln

amtel (another prison phone system)

tiffanys the jewerly tiffanys yeah blind sql vuln

amazon aws. maybe?? shodan :8888/tree
lots and lots of open terminals no login u have root like so sudo su
so i ready to share my bounty. where would a good place to do it at im also looking for some help hunting more vuln sites. any one interesting in helping. tracking. down these. sites i have a lot of knowledge, techniques i want to share
